About the College

The College VITW was founded by Sri Boyapati Appa Rao garu in 2008, with the objective of providing excellent learning facility for women to pursue education in Engineering. VITW is affiliated to JNTUK, approved by AICTE, certified by ISO 9001:2015. VITW is only women's engineering college in the heart of Vijayawada] city offering engineering undergraduate courses in CSE,ECE,IT,AI ML,DS and Master in business administration and diploma engineering courses in DCME, DECE, DEEE. VITW has made its presence felt more with academic, discipline, results and the achievements of its students.

About ECE Department

The Department of Electronics and Communication Engineering (ECE) is established in the year 2008 with a view to develop quality engineers to meet the current trends. The Department provides Undergraduate programmed in B.Tech (ECE) is noted for research and teaching excellence. Its recognized faculty members are engaged in breakthrough research across the leading areas of Electronics and Communication Engineering

PROGRAM REPORT

Name of the Program : ADD-ON COURSE on "AWS (MLOps)"

Duration : 05-02-2024 to 22-02-2024

Resource Person : Ms k.Prasuna

Associate Professor & HoD, Department of ECF,
Vijaya Institute of Technology for Women
Phone no:8008842308

Name of the Coordinator : Mr.B.Swaroop

No. of Participants : 39

Program Objective : The primary purpose of machine learning is to discover patterns in the user data and then make predictions based on these and intricate patterns for answering business questions and solving business problems. Machine learning helps in analysing the data as well as identifying trends

Topics Covered : AWS Introduction and Account Creation, AWS Cloud Essentials 1 - Virtual Machines (EC2), ELB, EBS, AWS Cloud Essentials 2 - AWS Lambda, Docker Container, EKS, AWS Cloud Essentials 3 - RDS, DynamoDB, S3, Introduction to Machine Learning, ML with AWS SageMaker, Data Collection, Pandas for Machine Learning, Numpy for Machine Learning, Matplotlib, Seaborn for Machine Learning, AWS Data Wrangler, Outlier Detection & Handling, Feature Selection, Train Test Split, Data Preprocessing with SageMaker's Scikit-Learn Container, Machine Learning Modeling, Model Evaluation, AWS SageMaker Built-in Algorithms for ML, Machine Learning Project - Classification - Vehicle Insurance Claim Fraud Detection

Program Outcome : Specifically, MLOps provides reproducibility of ML pipelines, enabling more tightly-coupled collaboration across data teams, reducing conflict with devops and IT, and accelerating release velocity.

About the College

The College VITW was founded by Sri Boyapati Appa Rao garu in 2008, with the objective of providing excellent learning facility for women to pursue education in Engineering. VITW is affiliated to JNTUK, approved by AICTE, certified by ISO 9001:2015. VITW is only women's engineering college in the heart of Vijayawada] city offering engineering undergraduate courses in CSE,ECE.IT,AI ML.DS and Master in business administration and diploma engineering courses in DCME, DECE, DEEE. VITW has made its presence felt more with academic, discipline, results and the achievements of its students.

About ECE Department

The Department of Electronics and Communication Engineering (ECE) is established in the year 2008 with a view to develop quality engineers to meet the current trends. The Department provides Undergraduate programmed in B.Tech (ECE) is noted for research and teaching excellence. Its recognized faculty members are engaged in breakthrough research across the leading areas of Electronics and Communication Engineering

PROGRAM REPORT

Name of the Program : ADD-ON COURSE on "IoT WIRELESS AND CLOUD"
Duration : 18-09-2023 to 06-10-2023

Resource Person : Mr.V.Devasahayam
Assistant Professor, Department of ECE,
Vijaya Institute of Technology for Women
Phone no:9393350877

Name of the Coordinator : Mrs. U.Krupa

No. of Participants : 142

Program Objective : IoT (Internet of Things) devices are already abundant, but new products that include IoT modules are now a common trend. Also, almost everything is already connected to a Cloud, and much more will be in the future. Naturally, as this trend continues, in the near future almost all devices and appliances will include IoT modules which will use sensor data collection and control/management based on Clouds

Topics Covered : IoT Business And Products, IoT Architectures And Technologies, Functionality Of IoT, Architecture Layers Of IoT, Characteristics Of IoT , IoT Cloud Computing Technologies, IoT R&D (Research & Development), IoT Hardware Technologies, Characteristics Of IoT Sensors Types, Actuator Types, And RFID Types As Well As The Functionality And Characteristics Of IoT Device Platforms, IoT Networks Focuses On The Functionality And Characteristics Of IoT Wireless Networks, IoT Network Architecture, Functionality And Characteristics Of IoT Wireless Communication Technologies Based On WLAN, Advantages Of IoT And 5G Mobile Communication Networks, Advantages Of IoT And 5G Mobile Communication Networks, Cloud Technology Focuses On The Cloud Market Analysis

Program Outcome : This course ends with projects that teach how to analyze Bluetooth and W-Fi wireless networks and setup and use an EC2 (Elastic Compute Cloud) Virtual Computer in AWS (Amazon Web Service), which is the most powerful and popular Cloud technology in the world

CIRCULAR

All the students are hereby informed that the Department of Computer Science & Engineering is conducting an "Add-On Course" titled "IOT EDGE COMPUTING IN ROBOTICS" for III - B. Tech, CSE-Computer science and Engineering students. The course will be conducted from 03/08/2023 to 22/08/2023. In this context, all the students are requested to register their names in the department office on or before 26/07/2023. Students are strictly directed to enroll for the course and attend classes regularly without missing in order to improve knowledge and to get better placement.

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About CSE Department

The department has well qualified, experienced and dynamic faculty who are engaged in break through research across the leading areas of computer science and engineering. The engineering and Society, a part of CSE Department produces versatile students and encourages them to be employed in exciting careers. On an individual level, the department improves programming skills and creates awareness among the recent trends and technologies in the computer field.

About the Course

Edge computing is the practice of processing and computing client-side data close to the data source, rather than moving it to a central server or cloud-based location. It brings computing resources, data storage, and enterprise applications closer to where people or devices actually consume an application or data.

Objectives

After taking the course, students will be able to

- Reduced latency of communication between IoT devices and the central IT networks.
- Faster response times and increased operational efficiency.
- Improved network bandwidth.
- Continued systems operation offline when a network connection is lost.
- Local data processing, aggregation, and rapid decision making via analytics algorithms and machine learning.

Outcomes

At the end of this course, students will be able to

- The rapid growth in data volume and the increasing number of internet-connected devices have strained traditional data center infrastructures.
- A study by Gartner predicts that 75 percent of enterprise-generated data will be created outside centralized data centers by 2025.
- This massive amount of data burdens the internet, leading to congestion and disruptions.

Topics to be Covered

- Introduction
- System structure
- Robotics system
- Edge computing system
- Orchestration system
- Connectivity challenges
- Edge-based robotics application for mobile robots
- Mobile robots system implementation

- Experimental evaluation
- Wireless channel behaviour
- Algorithm design
- Experimental results
- Network-assisted D2D robot coordination
- Operational technologies
- Development and IT operations

Vijaya Institute of Technology for Women

Phone No. 9985460246

Name of the Coordinator : Mrs. Sk. Naga Rehmatunnisa

No. of Participants : 117

Program Objectives : After taking the course, students will be able to

- Reduced latency of communication between IoT devices and the central IT networks.
- Faster response times and increased operational efficiency.
- Improved network bandwidth.
- Continued systems operation offline when a network connection is lost.
- Local data processing, aggregation, and rapid decision making via analytics algorithms and machine learning.

Topics Covered: Introduction, System structure, Robotics system, Edge computing system, Orchestration system, Connectivity challenges, Edge-based robotics application for mobile robots, Mobile robots system implementation, Experimental evaluation, Wireless channel behavior, Algorithm design, Experimental result, Network-assisted D2D robot coordination, Operational technologies, Development and IT operations.

Program Outcomes : At the end of this course, students will be able to:

- The rapid growth in data volume and the increasing number of internet-connected devices have strained traditional data center infrastructures.
- A study by Gartner predicts that 75 percent of enterprise-generated data will be created outside centralized data centers by 2025.
- This massive amount of data burdens the internet, leading to congestion and disruptions.

CIRCULAR

All the students are hereby informed that the Department of Computer Science & Engineering is conducting an "Add-On Course" titled "AUTONOMOUS ROBOTIC VEHICLE" for II - B. Tech, CSE-Computer science and Engineering students. The course will be conducted from 01/11/2023 to 18/11/2023. In this context, all the students are requested to register their names in the department office on or before 27/10/2023. Students are strictly directed to enroll for the course and attend classes regularly without missing in order to improve knowledge and to get better placement.

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About CSE Department

The department has well qualified, experienced and dynamic faculty who are engaged in break through research across the leading areas of computer science and engineering. The engineering and Society, a part of CSE Department produces versatile students and encourages them to be employed in exciting careers. On an individual level, the department improves programming skills and creates awareness among the recent trends and technologies in the computer field.

About the Course

An **autonomous robot** is a robot that acts without recourse to human control. The first autonomous robots environment were known as Elmer and Elsie, which were constructed in the late 1940s by W. Grey Walter. They were the first robots in history that were programmed to "think" the way biological brains do and meant to have free will. Elmer and Elsie were often labeled as tortoises because of how they were shaped and the manner in which they moved. They were capable of phototaxis which is the movement that occurs in response to light stimulus.

Historic examples include space probes. Modern examples include self-driving vacuums and cars. Industrial robot arms that work on assembly lines inside factories may also be considered autonomous robots, though their autonomy is restricted due to a highly structured environment and their inability to locomote.

Objectives

After taking the course, students will be able to

- Order fulfillment
- Returns handling
- Raw materials transport and sorting
- Parcel sortation
- Inventory management

Outcomes

At the end of this course, students will be able to

- **Customer satisfaction**
- **Productivity**
- **Accuracy**
- **Resource utilization**
- **Return on investment**
- **Reduced staffing headaches**

Topics to be Covered

- Perception and Sensing
- Real-time Decision Making
- Human-Robot Interaction
- Adaptability to Novel Situations
- Ethical and Legal Issues
- Data Security and Privacy
- Interoperability
- Robustness in Unstructured Environments
- Energy Efficiency

- Public Perception and Acceptance
- Key Differences Between robotics and autonomous systems
- Industrial, outdoor, and outer space application areas
- Autonomous robotic technology
- domestic maintenance
- distributing products and services

Program Report

Name of the Program : Add-On Course on“AUTONOMOUS ROBOTIC VEHICLE”

Duration : 01/11/2023 to 18/11/2023

Resource Person : Mr.T.Anil Karuna Kumar, Associate Professor, Department of CSE
Vijaya Institute of Technology for Women
Phone No.9885411869

Name of the Coordinator : Mrs. J.Kannamma

No. of Participants : 109

Program Objectives : After taking the course, students will be able to

- Order fulfillment
- Returns handling
- Raw materials transport and sorting
- Parcel sortation
- Inventory management

Topics Covered: Perception and Sensing ,Real-time Decision Making,Human-Robot Interaction ,Adaptability to Novel Situations ,Ethical and Legal Issues,Data Security and Privacy,Interoperability,Robustness in Unstructured Environments,Energy Efficiency,Public Perception and Acceptance,Key Differences Between robotics and autonomous systems,Industrial, outdoor, and outer space application areas,Autonomous robotic technology ,domestic maintenance ,distributing products and services.

Program Outcomes : At the end of this course, students will be able to:

- Customer satisfaction
- Productivity
- Accuracy
- Resource utilization
- Return on investment
- Reduced staffing headaches

CIRCULAR

All the students are hereby informed that the Department of Computer Science & Engineering is conducting an "Add-On Course" titled "IMAGE PROCESSING USING MATLAB" for II - B. Tech, Computer science and Engineering Data Science students. The course will be conducted from 19/01/2024 to 06/02/2024. In this context, all the students are requested to register their names in the department office on or before 05/01/2024. Students are strictly directed to enroll for the course and attend classes regularly without missing in order to improve knowledge and to get better placement.

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About CSE Department

The department has well qualified, experienced and dynamic faculty who are engaged in break through research across the leading areas of computer science and engineering. The engineering and Society, a part of CSE Department produces versatile students and encourages them to be employed in exciting careers. On an individual level, the department improves programming skills and creates awareness among the recent trends and technologies in the computer field.

About the Course

Image processing is a method to perform some operations on an image, in order to get an enhanced image or to extract some useful information from it. It is a type of signal processing in which input is an image and output may be image or characteristics/features associated with that image. Nowadays, image processing is among rapidly growing technologies. It forms core research area within engineering and computer science disciplines too.

Objectives

After taking the course, students will be able to

- Transforming between image color spaces
- Segmenting objects based on color attributes and color difference
- Segmenting objects based on texture using nonlinear filters
- Analyzing image texture using statistical measures like contrast and correlation

Outcomes

At the end of this course, students will be able to

1. Demonstrate fundamental knowledge in
 - Read images using MATLAB
 - Analyze the images
 - Identify the type of image
2. Analyze various functions of Image Processing Toolbox.
3. Design solutions for complex engineering problems using MATLAB.
4. Select and apply appropriate techniques to solve complex engineering problems pertaining to image processing.
5. Work effectively as an individual or as a group member or leader in the field of Image Processing.

Topics to be Covered

- Importing and exporting images
- Enhancing images
- Detecting edges and shapes
- Segmenting objects based on their color and texture
- Modifying objects' shape using morphological operations

- Separating adjacent and overlapping objects with watershed transform
- Identifying objects by detecting lines and circles
- Applying geometric transformations to image
- Aligning images using phase correlation
- Aligning images using point mapping
- Measuring shape properties
- Performing batch analysis over sets of images
- Aligning images with image registration
- Detecting, extracting, and matching image features
- Matching features to estimate geometric transformation between two images

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About IT Department

The department has well-qualified, experienced and dynamic faculty along with technical skills who spearhead the process of achieving the vision of the department. The department was established in the year 2008 with B. Tech programme in Information Technology. The Objective of the department is to impart quality education with practical approach and to develop research, innovative skills. To face Challenges of the industry & Academia.

About the Course

This course serves as an introductory exploration into the foundational principles and applications of blockchain technology. As one of the most disruptive innovations of recent times, blockchain has transformed various industries and continues to offer vast potential for innovation and transformation. Through a blend of theoretical concepts and practical examples, participants will gain a comprehensive understanding of how blockchain works, its underlying mechanisms, and its wide-ranging implications.

Objectives

- ❖ Understanding Blockchain Fundamentals
- ❖ Exploring Crypto currencies and Tokens
- ❖ Examining Blockchain Security
- ❖ Exploring Blockchain Governance
- ❖ Developing Practical Skills

Outcomes

Understand of the fundamental concepts, principles, and components of Blockchain technology. Analyze and evaluate real-world applications of Blockchain technology across various industries. Demonstrate proficiency in Blockchain security principles, including cryptographic methods. Develop practical skills in writing, deploying, and interacting with smart contracts on Blockchain platforms. Have hands-on experience with Blockchain development tools, platforms, and programming languages

Topics to be Covered

- ❖ Introduction to Blockchain Technology
- ❖ Crypto currencies, Smart Contracts
- ❖ Blockchain Platforms and Frameworks
- ❖ Decentralized Finance (DeFi)
- ❖ Blockchain Security
- ❖ Blockchain Interoperability

- ❖ Scalability Solutions
- ❖ Regulatory and Legal Considerations
- ❖ Supply Chain Management
- ❖ Identity Management
- ❖ Tokenization
- ❖ Blockchain in Healthcare
- ❖ Blockchain in Government
- ❖ Environmental Impact of Blockchain

Duration: 02/11/2023 to 18/11/2023

Resource Person: Mrs. B. Jaya Keerthi

Asst. Professor, Department of IT,

Vijaya Institute of Technology for Women

Phone Number: 8142641307

Name of the Coordinator: Ms. Md. Nourien

No. of Participants: 101

Program Objective: After taking the course, students will be able to

- Understanding Blockchain Fundamentals
- Exploring Crypto currencies and Tokens
- Examining Blockchain Security
- Exploring Blockchain Governance
- Developing Practical Skills

Topics Covered:

1. Introduction to Blockchain Technology
2. Crypto currencies
3. Smart Contracts
4. Blockchain Platforms and Frameworks
5. Decentralized Finance (DeFi)
6. Blockchain Security
7. Blockchain Interoperability
8. Scalability Solutions
9. Regulatory and Legal Considerations
10. Supply Chain Management

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About IT Department

The department has well-qualified, experienced and dynamic faculty along with technical skills who spearhead the process of achieving the vision of the department. The department was established in the year 2008 with B. Tech programme in Information Technology. The Objective of the department is to impart quality education with practical approach and to develop research, innovative skills. To face Challenges of the industry & Academia.

About the Course

Natural Language Processing (NLP) stands at the forefront of artificial intelligence and language technology, revolutionizing the way machines understand and interact with human language. This course delves into advanced concepts and practical applications of NLP, equipping participants with the knowledge and skills to harness the power of language processing technologies in various domains. Through a combination of theoretical insights, hands-on exercises, and real-world case studies, participants will explore cutting-edge techniques, emerging trends, and innovative applications of NLP across diverse fields.

Objectives

- ❖ Gain a solid understanding of the foundational concepts, theories, and methodologies underlying natural language processing.
- ❖ Explore advanced techniques and algorithms used in NLP
- ❖ Acquire practical experience with popular NLP libraries and frameworks

- ❖ Learn techniques for representing textual data effectively

Outcomes

Demonstrate a deep understanding of fundamental concepts, theories, and methodologies in natural language processing. Students will be proficient in applying advanced techniques and algorithms in NLP, such as deep learning architectures. Students will be able to effectively utilize popular NLP libraries and frameworks such as NLTK, SpaCy, TensorFlow, and PyTorch. Students will demonstrate proficiency in representing textual data effectively using techniques such as bag-of-words, TF-IDF, word embeddings etc.

Topics to be Covered

- ❖ Introduction to Natural Language Processing (NLP)
- ❖ Challenges and limitations in NLP
- ❖ Text Pre-processing in NLP
- ❖ Text Representation in NLP

- ❖ Syntax and Parsing techniques of NLP
- ❖ Semantics and Meaning Representation
- ❖ Statistical and Machine Learning Methods in NLP
- ❖ Deep Learning for NLP
- ❖ Applications of Natural Language Processing
- ❖ Advanced NLP Technique
- ❖ Multimodal NLP (incorporating images, audio, etc.)
- ❖ Ethical and Societal Implications of NLP
- ❖ Hands-on Projects and Case Studies
- ❖ Current Research Trends and Future Direction
- ❖ Recent advancements in NLP research

Name of the Program: Add-On course on "NATURAL LANGUAGE PROCESSING: ADVANCES AND APPLICATIONS"

Duration: 18/03/2024 to 06/04/2024

Resource Person: Ms. Y. Sirisha

Asst. Professor, Department of IT,

Vijaya Institute of Technology for Women

Phone Number: 9494769756

Name of the Coordinator: Mrs. B. Jaya Keerthi

No. of Participants: 42

Program Objective: After taking the course, students will be able to

- Gain a solid understanding of the foundational concepts, theories, and methodologies underlying natural language processing.
- Explore advanced techniques and algorithms used in NLP
- Acquire practical experience with popular NLP libraries and frameworks
- Learn techniques for representing textual data effectively

Topics Covered:

- 1 Introduction to Natural Language Processing (NLP)
1. Challenges and limitations in NLP
2. Text Preprocessing in NLP
3. Text Representation in NLP
4. Syntax and Parsing techniques of NLP
5. Semantics and Meaning Representation
6. Statistical and Machine Learning Methods in NLP,
7. Deep Learning for NLP
8. Applications of Natural Language Processing
9. Advanced NLP Technique
10. Multimodal NLP (incorporating images, audio, etc.)

11. Ethical and Societal Implications of NLP
12. Hands-on Projects and Case Studies
13. Current Research Trends and Future Direction
14. Recent advancements in NLP research

Program Outcome: At the end of this course, students will be able to:

- Demonstrate a deep understanding of fundamental concepts, theories, and methodologies in natural language processing
- Students will be proficient in applying advanced techniques and algorithms in NLP, such as deep learning architectures
- Students will be able to effectively utilize popular NLP libraries and frameworks such as NLTK, SpaCy, TensorFlow, and PyTorch
- Students will demonstrate proficiency in representing textual data effectively using techniques such as bag-of-words, TF-IDF, word embeddings etc.

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About AIML Department

The department has well-qualified, experienced and dynamic faculty who are engaged in break through research across the leading areas of Artificial Intelligence and Machine Learning.

The Engineers & Society, a part of AIML Department produces versatile students encourages them to be employed in exciting careers. On an individual level, Department improves programming skills and creates awareness among the recent trends & technologies in the computer field.

About the Course

Artificial intelligence (AI) has already changed much of the world as we know it – from automating systems to improving the decisions we make and the ways we go about making them. Yet, perhaps the most impactful and personal ways AI is changing our world are within the field of health care, where it's being used to diagnose, create personalized treatment plans, and even predict patient survival rates.

Objectives

- Use and Develop Systems that can enhance preventive care and quality of Life
- Analyze large datasets to produce more accurate diagnoses and treatment phases
- Identify and Lead to better patient outcomes overall

Outcomes

- Develop Personalized treatment plans
- Assist Clinicians with decision making
- Accurate Diagnoses of Disease
- Analyse Medical Imaging Data

Topics to be Covered

- Introduction to AI
- Introduction to AI in Health Care
- Types of AI in Health Care
- Disease Identification/ Diagnosis
- Personalized Treatment/ Behavioral Modification
- Drug Discovery/ Manufacturing
- Robotic Surgery
- Clinical Trial Research
- Doing Repetitive Job
- Treatment Design
- Benefits & Future of AI in Health Care

PROGRAM REPORT

Name of the Program: Add-On Course on "AI in Health Care"

Duration: 10/10/2023 to 03/11/2023

Resource Person: Ms. K. Prasuna

Associate Professor, Department of ECE,
Vijaya Institute of Technology for Women

Phone Number : 8008842308

Name of the Coordinator: Ms. B. Prasanna Angel

No. of Participants: 41

Program Objective: After taking the course, students will be able

- Use and Develop Systems that can enhance preventive care and quality of Life
- Analyze large datasets to produce more accurate diagnoses and treatment phases
- Identify and Lead to better patient outcomes overall

Topics Covered:

1. Introduction to AI
2. Introduction to AI in Health Care
3. Types of AI in Health Care
4. Disease Identification/Diagnosis
5. Personalized Treatment/ Behavioral Modification
6. Drug Discovery/Manufacturing
7. Robotic Surgery
8. Clinical Trial Research
9. Doing Repetitive Job
10. Treatment Design
11. Applications of AI in Health Care
12. Benefits of AI in Health Care
13. Challenges of AI in Health Care
14. The Future of AI in Health Care

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About AIML Department

The department has well-qualified, experienced and dynamic faculty who are engaged in break through research across the leading areas of Artificial Intelligence and Machine Learning.

The Engineers & Society, a part of AIML Department produces versatile students encourages them to be employed in exciting careers. On an individual level, Department improves programming skills and creates awareness among the recent trends & technologies in the computer field.

About the Course

Focusing on Generative AI impactful role in language and writing on advanced language models like GPT and BERT, unravelling the intricacies of prompt engineering to guide these AI systems effectively. With the deep insights into the capabilities of Large Language Models (LLMs) for tasks ranging from creative writing and content generation to coding and context understanding.

Objectives

- Develop data analysis for Generative AI
- Use and Develop new content based on a variety of Inputs
- Identify Discriminative models discriminate between different kinds of data instances

Outcomes

- Enhance data driven decision-making
- Transformation of Knowledge work
- Enables to quickly generate new content based on a variety of inputs

Topics to be Covered

- Latest updates of Generative AI
- Chat GPT
- Open AI
- Google Gemini & Bert
- Large Language Model(LLM)
- LLM Comparison Criterion
- Principles & Guidelines of Prompt Engineering
- Design Input NLP to get results for LLM
- Fine Tuning Open AI API
- Count Evaluate Generative AI
- Generative AI Adoption Framework
- Trade-Off & Conflicts of AI
- Conclusion

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About FED Department

The department has well - qualified, experienced and dynamic faculty along with technical skills who spearhead the process of achieving the vision of the department. On an individual level it improves personality and sense of self-worth among students.

About the Course

R is an open-source software environment. When it comes to comprehensive cyber security protection, Cyberops is one of the best cyber security companies in India. We are the domain pioneers who thrive to build empowering cyberspace. Our expertise lies in offering discrete products and services to build a resilient security architecture.

Objectives

- Vulnerability assessment
- Enhance security awareness in their respective organization
- Ensure compliance with the industry regulation and standards

- Security research and development
- Ensure there is minimal risk of data breaches and other security incidents.
- Training and education - ethical hackers spend better part of their time creating awareness about

Outcomes

- The most common problem that faces many people is how to correctly navigate the legal and ethical considerations around the field.
- As much as ethical hacking is legal in many countries, it is still important to ensure that everything is done within the bounds of the law.

Topics to be Covered

- What is Hacking?
- What are the Different Types of Hackers?

- What are the Roles and Responsibilities of an Ethical Hacker?
- Key Benefits of Ethical Hacking and phases of Ethical Hacking
- Arithmetic and Boolean Operators and Values
- Data Frames
- Some Important R-Data structures
- Installing Virtual Box Manager and Kali Linux.
- Advantages and disadvantages of Kali Linux, Practicing commands using Kali Linux

What are the Roles and Responsibilities of an Ethical Hacker?, Key Benefits of Ethical Hacking and phases of Ethical Hacking, Installing Virtual Box Manager and Kali Linux. Advantages and disadvantages of Kali Linux. Practicing commands using Kali Linux Pen testing using Kali Linux. How are Ethical Hackers Different from Malicious Hackers?, Elements of Information Security, Difference between Threat and Attack, Difference types of Security Threats, Network Basics and Types of Networks, Types of Topologies, OSI Reference Model, ICMPv4 Messages and ICMPv6 RS and RA Messages, Trace route Test the Path, Packet Tracer – Verify IPv4 and IPv6 Addressing, Network Services Dynamic Host Configuration Protocol, DHCP Operation, DHCP Message Format, DNS Overview, The DNS Domain Hierarchy, The DNS Lookup Process, DNS Message Format, Using Wire shark to Examine TCP and UDP Captures and Ethernet Frames.

Program Outcome: At the end of this course, students will be able to:

- The most common problem that faces many people is how to correctly navigate the legal and ethical considerations around the field.
- As much as ethical hacking is legal in many countries, it is still important to ensure that everything is done within the bounds of the law.

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About FED Department

The department has well - qualified, experienced and dynamic faculty along with technical skills who spearhead the process of achieving the vision of the department. On an individual level it improves personality and sense of self-worth among students.

About the Course

3D printing is a tool that allows people to create new things, limited only by imagination. 3D printing and modeling projects should empower students to take chances and make mistakes. Students will be introduced to 3D printing and learn how to create their own print files.

Objectives

- Familiarize and educate students about the components of a 3D printer
- How to operate a 3D printer, preparing & making files to print and designing objects to be printed
- To promote the use of math, engineering principles and solar power technology to design and test a variety of vehicles.

- Familiarize and educate about the anatomy and chemistry of the human body utilizing hands on activities.

Outcomes

- Identify components of a 3D printer
- Demonstrate knowledge of levelling and updating firmware
- Design print in Google Sketch Up or other available software
- Create and engineer a 3D model that addresses a need
- Evaluated and improved the model created to suit the need

Topics to be Covered

- 3D Printing technology definition
- How to design a STL file
- Import the STL file in 3D printer software,
- How to use automated software tools/commands for checking STL file
- scale and position object within building envelope,
- set process parameters,
- slice the model 3D Printing process steps for 3D printing

About the College

Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent education in engineering for women. VITW is affiliated to Jawaharlal Nehru Technological University (JNTUK), Kakinada, approved by AICTE, Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering Engineering Undergraduate Courses in CSE, ECE, EEE and IT, MBA and Diploma Engineering courses in CSE, ECE and EEE. VITW, being the only one Women's Engineering College in Vijayawada, has made its presence felt with its academic discipline, results and the achievements of students.

About FED Department

The department has well - qualified, experienced and dynamic faculty along with technical skills who spearhead the process of achieving the vision of the department. On an individual level it improves personality and sense of self-worth among students.
