

## 7.2 BEST PRACTICE

### **BEST PRACTICE-1**

**TITLE: SUKRUTHI**

#### **OBJECTIVE OF THE PRACTICE:**

The main objective of SUKRUTHI is to be committed towards the welfare of the community. The institution makes students engage in community development to empower rural people. The institute aims to work with exemplary commitment towards society. The students are encouraged to be ever ready to extend their helping hands for the community development.

#### **DESCRIPTION:**

The institution always contributes for the well being of the community. The students were given equal opportunities to provide basic requirements to the people for their better living. VITW has a strong NSS unit which works with commitment for making a better society. The students visited Kanuru, village near to Vijayawada and under NSS unit and the students visited old age home and provided them with food and medical care. The students distributed blankets and food packets to the under privileged people. No bag day is conducted for school students. The students conducted computer classes to the students of rural areas to impart additional knowledge to the students. The students visited orphanage homes and conducted games to them and our students realized the importance of having parents who are always lovable towards them. The NSS students campaigned program with the slogan "SAVE ENERGY SAVE WATER". The students strictly banned use of plastic in college premises and gave awareness about effects of using plastic which is hazardous to life of mankind. Painting competitions were held to rural students and prizes were distributed to encourage them.

#### **THE PRACTICE:**

There were many best practices that had happened in the institution. Many programs were conducted by the students. The NSS unit with a strong desire towards working for the community has organized many programs in the college premises. Blood Donation is one of the best practices followed in the institution. The faculty as well as students showed their enthusiasm to donate the blood which shows their commitment towards society and people. In summer vacation the students visited remote localities and educated the school children. The students have a direct interaction with the community

at large to deal the theoretical lessons with practical learning. The college students visited Kanuru to exercise the Cleanliness Campaign there by making the places clean under Swatch Bharat Yoga and meditation practices are organized in the college for faculty and students for mental health. The institution organized Tree plantation in the college premises as it exhorts the citizens to preserve our natural environment.

### **EVIDENCE OF SUCCESS**

It is remarkable that the spirit of cleanliness helped the students to keep their surroundings clean. Also, yoga and meditation practices have become a part of everyday life as they follow these activities on a regular basis. The success of the practice is also evident in the students by becoming more active and confident in leading life in their own space of living.

### **PROBLEMS ENCOUNTERED**

We had encountered many problems to reach the people in Kanuru as we had to wait for hours to obtain permissions and appointments from local leaders. Due to skepticism towards blood donation, many students have hesitated to donate blood and it was quite a big task for faculty to convince the students. In few occasions the students of rural Areas were forbidden by parents to participate in community programs. Hence to convince them assurance had to be given to parents by the faculty regarding safety of the students.

## **BEST PRACTICE-2**

### **TITLE: EKALAVYA – THE SELF LEARNING**

Self Learning is a type of learning that anyone could acquire knowledge from outside of a formal educational setting, such as through self-study or experience, which is self-driven learning. One thing most people have in common is a desire to self-learn which is the modern way of learning, as it is proven to be more effective and convenient.

Objectives are:

- To make learning with no restrictions of time and place
- To make students as self-directed learners.
- To upgrade knowledge on latest trends and technologies.
- To learn concepts from being aspirants to become globally competent person.
- To make themselves more involved to think different from other people.

### **The Context:**

Self Learning is learning facilitated by technology that gives students some control over time, place, or pace of learning. Digital learning strategies includes online learning, e-learning, mobile learning etc. or a combination of them. Students from different backgrounds need training to improve their skills so the college has been working with the aim of making it a centre for learning. Considering these requirements, the institute encourages students and staff to do online courses offered by various prestigious institutions.

### **The Practice:**

#### **a. Online Learning**

Online learning enables students to learn using ICT. Students are motivated to do online courses like Course Era, NPTEL, Infosys Spring Board with the help of video lessons to improve learning and to enhance their skills.

### **b. E-Learning**

E-Learning is a learning system is a teaching which is possible with the help of electronic resources. E-learning is used for training staff and students. The institute organized training programs like Python for everyone, Cyber Security and Java by involving students of all branches, in association with Eduskills APSSDC as part of skill development. The institute conducted training program on RPA (Robotic Process Automation) .The student's gets the weight-age in their resume because of the certificates in respected courses.

#### **Evidence of Success:**

- NPTEL certifications were done by students.
- Students received certificates from EduSkills.
- Students Received APSSDC Certificates.

#### **Problems Encountered and Resources Required:**

##### **Problems Encountered:**

- Providing lab slots to occupy extra lab hours for online training.
- Providing slots in the time-table to give training in regular basis
- Motivating the students to stay beyond working hours.

##### **Resources Required:**

- Transport required for learning beyond working hours.
- Hardware and software required for face to face interaction

The college management provided adequate resources and the problems are solved with co-operation of staff and students by providing lab slots and staying beyond the working hours, when required.
