College Code: NP, Enikepadu, Vijayawada-521108

3.2.1 Institution has created an ecosystem for innovations and has initiatives for creation and transfer of knowledge

VIJAYA INSTITUTE OF TECHNOLOGY FOR WOMEN stands as a beacon of innovation, recognizing the inseparable link between learning and innovation. Within its hallowed halls, the institution has come to realize the pivotal role that innovation plays in shaping lives. This understanding has birthed a strategic approach aimed at cultivating an ecosystem where innovation thrives, permeating through every level of the organization.

At the heart of this initiative lie a series of meticulously designed measures, each meticulously crafted to foster an environment where creativity, problem-solving, and forward-thinking flourish. The canvas begins with dedicated 'Association Hours' carved out weekly for the minds of tomorrow, offering a dedicated space for discussions and brainstorming sessions on innovation and the latest technological advancements. This deliberate allocation of time empowers 3rd and 4th Year B.Tech students along with 2nd Year MBA students to engage actively in exploring the evolving landscape of innovation.

But it doesn't stop there. VIJAYA INSTITUTE recognizes that theory alone cannot breed innovation. Thus, they provide a platform for practical application through a diverse array of 'Projects.' These projects, both internal and external, are crafted to provide hands-on experiences, acting as crucibles where theoretical knowledge meets the fire of real-world scenarios.

The heartbeat of innovation resonates further through 'Technical Fests,' an annual rendezvous inviting students from various institutions. It serves as an interactive hub where minds converge, sharing insights, and absorbing the pulse of industrial and academic progress. This congregation is a nexus where ideas are sown, nurtured, and often transmuted into actionable endeavors.

Yet, the institution's commitment transcends its campus boundaries. It extends a helping hand to the community through 'Community Service Projects,' an obligatory endeavor that urges students to grapple with real-world challenges faced by rural communities. This bridge between academia and societal needs serves as a fertile ground for cultivating empathetic, solution-oriented mindsets.

Symposiums and industrial visits constitute pillars supporting this innovation ecosystem. These platforms summon experts from varied sectors, providing students with access to real-time industry insights. The fusion of theoretical concepts with practical applications gleans a holistic understanding of technological advancements.

Moreover, VIJAYA INSTITUTE fosters collaborative spaces through 'Student Clubs' where enthusiasts converge, nurturing innovative dialogues and sustaining a culture of continuous exploration and learning. This ethos trickles into 'Institute-Industry Interactions,' facilitating discourse between academia and industry stalwarts, potentially birthing entrepreneurial ventures.

The alumni's wisdom acts as a lighthouse guiding students toward uncharted territories of research and entrepreneurship. Meanwhile, hackathons, creative blogs, and mini challenges serve as crucibles for creativity, rapid ideation, and addressing multifaceted issues.

VIJAYA INSTITUTE orchestrated symphony of initiatives stands as a testament to its unwavering commitment to sculpting innovative minds. These measures, meticulously interwoven, form the warp and weft of an innovation tapestry, painting a future where brilliance, creativity, and societal impact merge seamlessly.

(57) Abstract :

Now a days, applications need several kinds of images as sources of information for elucidation and analysis. Several features are to be extracted so as to perform various applications. When an image is transformed from one form to another such as digitizing, scanning, 355 and communicating, storing, etc. degradation occurs. Therefore, the output image has to undertake a process called image enhancement, which consists of a group of methods that seek to develop the visual presence of an image. Image enhancement is fundamentally enlightening the interpretability or awareness of information in 360 images for human listeners and providing better input for other automatic image processing systems. Image then undergoes feature extraction using various methods to make the image more readable by the computer. Sign language recognition system is a powerful tool to prepare an expert knowledge, edge detect and the combination of 365 inaccurate information from different sources.

(57) Abstract :

The main aim of this innovation is to build a system for remote monitoring and control of key industrial parameters, such as gas measurement, speed, temperature, and diagnostic pressure, preventing human deaths, extending machinery life, automating range-based access. Protection and efficiency are the main considerations of the contemporary industry environment. This begins with efficient, reliable, and frequent monitoring. Such mechanisms were made manually in previous models, leading to mistakes and death losses. The proposed approach allows continuous monitoring and storing of critical parameters. This allows automatic choices depending on the parameters controlled In case of a threshold temperature exceeding that threshold, the cooling fan is decided to switch on automatically, the user is being sent an alert, and also in the case of a blast of fire or gas leakage, an automated alert and emergency notification will be sent to the fire rescue equipment, the owner, the responsible, etc.

(57) Abstract :

Renewable energy is the need of the current situation, hence has growing interest such as photovoltaic energy based on SPA technique. Focus is due to the wide awareness created towards environment along with higher cost of the conventional energy. Efficient maintenance of photovoltaic panels has to be done for the system to work in a significant way. This invention proposes SPA technique for the maintenance of the photovoltaic panels which involves smart method of maintenance involving three phases. These three phases are mapped in a technical way such that maximum power is generated from the solar energy. In the system of photovoltaic energy, positioning of the photovoltaic cells is such that they have sunlight exposure for transforming the energy. The energy is transformed by flow of electrons in the photovoltaic cells from one layer of the semiconductor device to other layer. Maximum efficiency is obtained from the photovoltaic cells using SPA technique without any loss of energy. The three phases being sensing, planning and acting which are implemented in a controlled way for providing the best result than the other products in the current era.

(57) Abstract :

Effective Management Analysis of Signal Coverage and Novel Design of Triangular Patch Antenna for Quasi Elliptic Band Pass Response Today the usage of wireless network is quite common in all part of the world. The effective management of radio signals is very essential to provide the optimized coverage over the service area. The radiation level of the electromagnetic signal from the wireless network need not be equal in all directions. Based on the geographic location, people density, etc., the radiation pattern of the wireless network signal has to be controlled. The radiation pattern can be controlled through proper management analysis of signals by considering the factors such as people density, geographical location, etc. For the effective management of radiation pattern, designing different type of antenna is required for different places. This invention proposed an Omni directional low profile patch antenna with the response of the filter investigated. A probe at the centre of the antenna feeds axially the triangular patch antenna which excites the dominant modes of the electromagnetic signal. The conventional circular patch antenna comparatively requires more size than the proposed triangular patch antenna which can generate null radiation at the upper band edge. Merging of the two nodes in the patch is done by introducing a series of shorting vias along with a ring slot which in turn enhances the bandwidth of the passband of the antenna. Simultaneous combination of the two elements generates null radiation at the lower band edge which results in obtaining compact filtering with quasi elliptic bandpass response without the involvement of complex specific circuits for filtering. The prototype has comparatively more impedance bandwidth with an average gain suppressing the out of band signals within the lower and upper stop band. The Most Illustrative Drawing: FIG. 1

(57) Abstract :

An watering system includes a moisture sensor, a process control unit, a water tank, a piping assembly, and a solar power unit. The moisture sensor detects a moisture level of the soil and generates a signal on detecting the moisture level in the soil is reduced than a threshold value. The process control unit initiates the operation of a piping assembly. The water tank is positioned near to the balcony to store water for irrigation. The piping assembly irrigates plants planted on the balcony. The process control unit stops the operation of the piping assembly on receiving the signal from the moisture sensor indicative to the moisture level more than the threshold value. The solar power unit supplies power to the moisture sensor, the process control unit, and the piping assembly.

ABOUT THE COLLEGE

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati AppaRao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

ABOUT MBA DEPARTMENT

The department was established in the year 2009 and offers 2 year full time Master of Business Administration (MBA) program with the approval of AICTE, and affiliated to JNTUK. Department of MBA believes in learning beyond the classroom and in interaction with industry. We at the Department instill aptitude to think logically and act rationally. Faculty members at MBA promote knowledge through teaching, research and training. Various tools are used to allow students to become Managers, Leaders and Entrepreneurs.

OBJECTIVES OF THE WORKSHOP:

Statistics is important to examine the data properly to make an accurate conclusion, proper data analysis, interpret the research results. It is majorly used in the future prediction for various observations in different fields. It helps us to make inference about the data. Statistical inference has a wide range of application in different fields like,

- Business Analysis,
- Artificial Intelligence,
- Financial Analysis,
- Machine Learning,
- Share Market,
- Pharmaceutical Sector.

**Department of Business Administration
In Association with
Entrepreneurship Development Cell
“A Workshop on How to create Statistical Inference”**

Registration Fee: Free

Registration Deadline: 02-05-2023

A **Workshop on How to create Statistical Inference** Was successfully organized by Department of Business Administration in association with R&D CELL, Vijaya institute of technology for women, Enikepadu, Vijayawada, Andhra Pradesh, held on 02-05-2023.

The main goal of **Workshop on How to create Statistical Inference** in a Business organization and get knowledge about how to collect Data, Transferring, Managing by using various measurements or tools & techniques

Objective of the Workshop:

Specific goals of this workshop include:

This objective will be very close to the heart of the industry in the direction of producing Ready to be employed engineers. The key goal of the Institute is to provide a creative atmosphere in which higher studies and research thrive amongst the faculty and students. To acquire such knowledge, business skills one should need guidance and experience. So this workshop can provide an insight of **DATA COLLECTION AND MANAGING**.

Objectives of the report

- Business Analysis,
- Artificial Intelligence,
- Financial Analysis,
- Machine Learning,
- Share Market,
- Pharmaceutical Sector.

A WORKSHOP
ON
HOW TO CREATE STATISTICAL INTERFERENCE?
02-05-2023

Organized by
DEPARTMENT OF MBA
in association with
R&D Cell

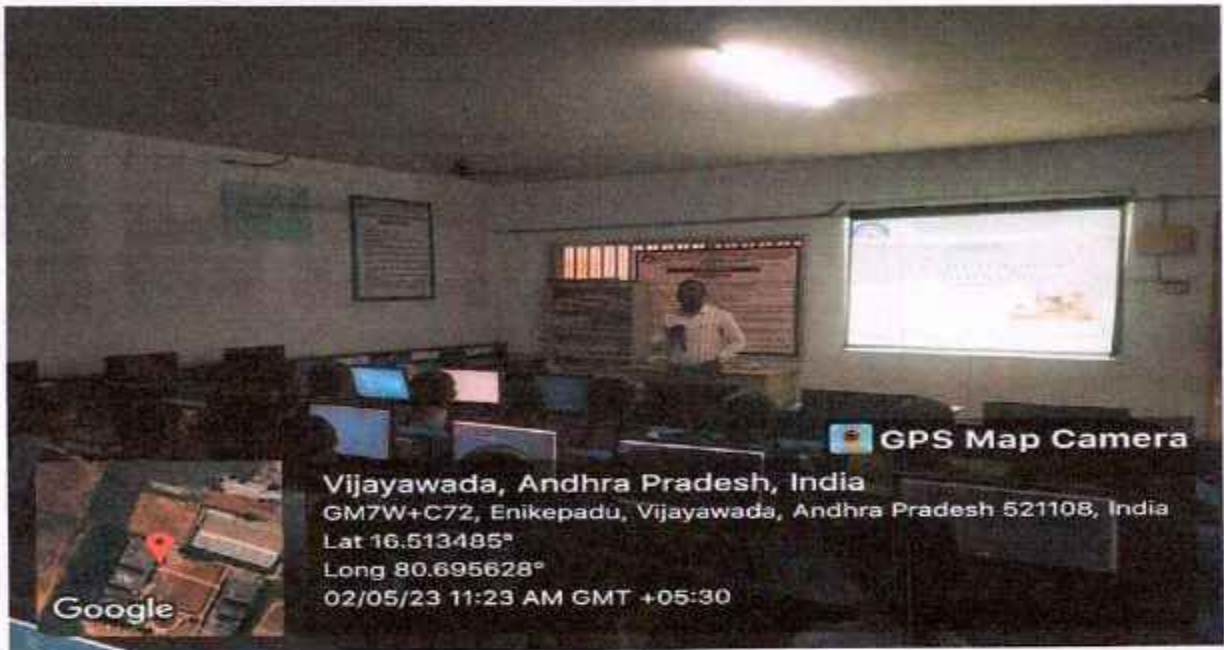

Resource Person
DR.U.GANGADHARA RAO
Assistant Professor
ALIET, Vijayawada.

Inauguration Function:

The inauguration function of the Seminar started on 02-05-2023 at 10.00 AM, with the welcome address by the Coordinator, Dr. K.Murali, Research and Development Cell Coordinator and Associate Professor, Department of AIML. Later Dr. G. Chenchamma, Principal, VITW spoke the need of knowing the Statistical Inference. Finally the session had started by our distinguished Guest Dr. U. GANGADHARA Rao, Department of Business Administration, ALIET, and Vijayawada. He had given a detailed analysis of How to Create Statistical Inference.

Presentation by Resource person

G. Uma
PRINCIPAL
VIJAYA INSTITUTE OF
TECHNOLOGY FOR WOMEN
ENIKEPADU, VIJAYAWADA-521 108.

Program Out Comes:

At the end of the Workshop the participants will have a clear knowledge on

- One sample hypothesis testing
- Confidence Interval
- Pearson Correlation
- Bi-variate regression
- Multi-variate regression
- Chi-square statistics and contingency table
- ANOVA or T-test

Finally A workshop on how to Creative Statistical Inference came to a close on 02-05-2023, with a Valedictory function. Gave the welcome address in the valedictory function. Guest of the Valedictory Function gave a motivational speech on How to Creative Statistical Inference and asked the participants to observe the day to day changes in the technology, which will be an advantage to grab the opportunities. Dr. K.Murali, coordinator of the R&D Cell presented the report on A Workshop on How to Create Statistical Inference.

ABOUT US

The College Vijaya Institute of Technology for Women (VITW) is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE, IT and AIML, DS, Masters of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

ABOUT CSE-DS DEPARTMENT

Data Science is an emerging area of Computer Science and Engineering (CSE). The Department of CSE-Data Science is established in the year 2022 with the annual intake of 30 students.

OBJECTIVES OF THE SEMINAR:

The goal of a seminar is to provide an opportunity for participants to gain knowledge and skills through lectures, discussion, and other interactive activities.

Seminars are typically designed to provide a comprehensive overview of a particular topic or to provide in-depth training on a specific subject

Objectives:

- Industrial design and copyright law both deal with the protection of creative works, but they approach this protection from different angles
- Industrial design focuses on the protection of the aesthetic and functional aspects of a product, while copyright law focuses on the protection of original works of authorship.
- copyright protection can help companies to protect their intellectual property and to prevent others from copying their works.

Data Science is an emerging area of Computer Science and Engineering (CSE). The Department of CSE-Data Science is established in the year 2022 with the annual in take of 30 students.

OBJECTIVES OF THE SEMINAR:

The goal of a seminar is to provide an opportunity for participants to gain knowledge and skills through lectures, discussion, and other interactive activities.

Seminars are typically designed to provide a comprehensive overview of a particular topic or to provide in-depth training on a specific subject

Objectives:

- Industrial design and copyright law both deal with the protection of creative works, but they approach this protection from different angles
- Industrial design focuses on the protection of the aesthetic and functional aspects of a product, while copyright law focuses on the protection of original works of authorship.
- copyright protection can help companies to protect their intellectual property and to prevent others from copying their works.

Department of Computer Science & Engineering-Data Science One day Workshop on The Interface between Designs and copyright Laws 20-03-2023

Registration Fee: Free

Registration Deadline: 20-03-2023

A one-day workshop on **the interface between designs and copyright laws** was successfully organised by the Department of Computer Science and Engineering—Data Science, Vijaya Institute of Technology for Women, Enikepadu, Vijayawada, Andhra Pradesh, on March 20, 2023.

The Workshop on The Interface between Designs and Copyright Laws held at [Vijaya Institute of Technology for Women] aimed to educate students and faculty about the concept and importance of specific skills for Designs and copyright Laws. participants with practical strategies and actionable steps they can take to use, design, and apply copyright skills in their ventures or startup ideas.

Objective of the Workshop:

Specific goals of this Workshop included:

To provide practical insights, promote legal literacy, and create a platform for dialogue between legal and creative communities. The primary objectives of the "Interface between Designs and Copyright Laws" workshop are as follows:

1. **Educational Objective:** Increase participants knowledge about the legal intricacies of designs and copyright laws, fostering a deeper understanding of how these frameworks intersect.
2. **Awareness of Legal Protections:** Raise awareness regarding the legal protections available for creative works, emphasising both design rights and copyright.
3. **Adaptability:** Recognise the evolving nature of intellectual property laws and encourage participants to stay informed about changes that may impact their work.

Inauguration Function:

The inauguration function of the workshop started on March 20, 2023, at 10 a.m., with a welcome address by the coordinator, Dr. P. Subbaiah, Professor, Department of MBA. Address by Dr. A.C. Priya Ranjani and the Key Note Address by the distinguished guest and resource person, Dr. S. Venkateswara Rao, M.Pharm., Ph.D., Professor & HoD, Dept. of Pharmaceutics, Vijaya Institute of Pharmaceutical Sciences for Women, Enikepadu, Vijayawada. The inaugural function concluded at 4 PM and the seminar session was followed by Dr. S. Venkateswara Rao. The interface between designs and copyright laws.

Presentation by Resource Person:

G. Chm
PRINCIPAL
VIJAYA INSTITUTE OF
TECHNOLOGY FOR WOMEN
ENIKEPADU, VIJAYAWADA-521 108.

Program Out Comes:

The Workshop on the Interface between Designs and Copyright Laws met its specific objectives. The seminar focused on enhancing participants knowledge and practical skills in navigating the complex interplay between design and copyright laws. contribute to equipping participants with the knowledge, skills, and resources to navigate the complex intersection of design and copyright laws effectively.

The one-day workshop on the interface between designs and copyright laws came to a close on March 20, 2023, with a valedictory function. Dr. P. Subbaiah gave the welcome address at the valedictory function. Guest of the Valedictory Function gave a motivational speech on the knowledge and skills needed to become effective social entrepreneurs and make a positive impact on society. Dr. P. Subbaiah, professor and coordinator of the MBA Department, presented the report at a one-day workshop on the interface between designs and copyright laws.

About College: The college Vijaya Institute of Technology for Women is founded by Sri. B.S. Appa Rao is an eminent educationalist who has been actively involved in promoting professional colleges such as Engineering, Medical and Pharmaceutical Sciences. His close association with educational institutes spans over three decades. He dreams of alleviating the status of the educational institutions of SRK Foundation making them Centers of Excellence on par with IITs and NITs. He desires of establishing Research and Development wing for inculcating scientific temper, humanism and the spirit of equity and reform among the student community. His objective is to produce world class engineers endowed with human values to serve the society and to bridge the gap between industry and the educational institutions. The college offer courses in Computer science (CSE), Artificial Intelligence and Machine Learning (AIML), Data Science (DS), Electrinocs and Communication Engineering (ECE), Information Technology (IT), Electrical and Electronics Engineering (EEE)

About Department of Artificial Intelligence and Machine Learning (AIML)

We are committed to shaping the future through cutting-edge advancements in Artificial Intelligence and machine learning. Our experienced faculty, state-of-the-art facilities, and emphasis on ethics ensure that students are equipped to drive innovation responsibly. From foundational education to advanced research opportunities, our AIML department provides a platform for students to thrive in the evolving landscape of technology.

Explore our comprehensive programs, including a Bachelor's Degree in Artificial Intelligence and Machine Learning. With strong industry collaborations and a focus on hands-on learning, our students graduate well-prepared to tackle real-world challenges. Join us and be part of a community dedicated to pushing the boundaries of Artificial Intelligence and machine learning, creating a positive impact on society.

ONE DAY SEMINAR ON RESEARCH METHODOLOGY AND DATA ANALYSIS

Date: March 13, 2023

Presented by: Mr. T. Anil Karuna Kumar

A one-day seminar on “**Research Methodology and Data Analysis**” was successfully organized by Department of Artificial Intelligence and Machine Learning in association with Research and Development Cell, Vijaya institute of technology for women, Enikepadu, Vijayawada, Andhra Pradesh, held on 13th March 2023.

The main goal of the seminar was Research is a method of methodical inquiry to explore deeper into a topic and create results that are socially meaningful in a variety of formats, such as a thesis, product, research paper, or patent. There are many distinct types of research, each of which uses a different methodology.

Objective of the Seminar:

Specific goals of this Seminar included:

A series of tasks are given for each step in the process of moving towards a problem solution. Every such task, whether it be data collecting, literature research, calculating a solution, or presenting the findings, needs the assistance of a number of tools and technology. These resources are not just helpful; they also contribute to an improvement in the caliber of the research findings.

Explaining by the Resource person Mr. T. Anil Karuna Kumar “What is research” to Participants

Program Out Comes:

This seminar programme is carefully designed around the acquisition of some open-source tools and methods for achieving research goals. The main tools discussed are those that would help a researcher conduct a methodical background knowledge investigation, visualize data, present results effectively, write a research paper, prepare reports and a thesis, and guard against plagiarism. The seminar overarching goal is to spread awareness of some of the crucial digital tools used for academic purposes, including developing research profiles, locating relevant and high-quality journals, and combining the essential digital skills that can play a critical role throughout the research process.

The one-day seminar on “**Research Methodology and Data Analysis**” came to a close on 13th March 2023, with a Valedictory function. Dr.G. Chenchamma gave the welcome address in the valedictory function. Guest of the Valedictory Function gave a motivational speech on relevance of quality research during the valedictory programme and encouraged the participants to keep learning research methodology techniques and doing quality research. Dr. K. Murali, coordinator of the R&D Cell presented the report on one day seminar on Research Methodology and Data Analysis. The coordinator of the seminar taken the Live feedback of participants.

13th Feb, 2023

Vijaya Institute of Technology for Women

An ISO 9001:2015 Certified Institution,

Affiliated to JNTUK, Kakinada,

Enikepadu, Vijayawada-521108,

Andhra Pradesh, India

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE). Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, AIML, EEE and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About ECEDepartment

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of ECE Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent trends & technologies in the computer field.

Objective of the Seminar:

It seems like you're interested in discussing the joy of research tools and techniques. Research is a fascinating and crucial aspect of academic and professional endeavors. Here's a brief exploration of some tools and techniques that can enhance the joy of research:

Objectives:

- ❖ Literature Review:
- ❖ cultivate skills in collaborative research, Computer Vision
- ❖ cultivate skills in collaborative research, AI Ethics and Fairness
- ❖ A comprehensive literature review helps researchers understand existing knowledge in their field AI for Healthcare
- ❖ Analyzing specific cases in-depth can provide a rich understanding of complex phenomena
- ❖ Crafting a well-designed experiment ensures reliable and valid results.
- ❖ Qualitative and quantitative data collection techniques provide diverse perspectives on a research topic.
- ❖ Observational Research

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, AIML,EEE and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About ECEDepartment

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of ECE Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent trends & technologies in the computer field.

Objective of the Seminar:

It seems like you're interested in discussing the joy of research tools and techniques. Research is a fascinating and crucial aspect of academic and professional endeavors. Here's a brief exploration of some tools and techniques that can enhance the joy of research:

Objectives:

- ❖ Literature Review:
- ❖ cultivate skills in collaborative research, Computer Vision
- ❖ cultivate skills in collaborative research, AI Ethics and Fairness
- ❖ A comprehensive literature review helps researchers understand existing knowledge in their field AI for Healthcare
- ❖ Analyzing specific cases in-depth can provide a rich understanding of complex phenomena
- ❖ Crafting a well-designed experiment ensures reliable and valid results.
- ❖ Qualitative and quantitative data collection techniques provide diverse perspectives on a research topic.
- ❖ Observational Research

A ONE DAY SEMINAR ON THE JOY OF RESEARCH TOOLS AND TECHNIQUES FOR RESEARCH

13-02-2023

Registration Fee: Free

Registration Deadline: 12-02-2023

A one-day seminar on **The Joy of Research Tools and Techniques for Researcher** was successfully organized by Research and Development Cell, Vijaya Institute of Technology for Women, Enikepadu, Vijayawada, Andhra Pradesh, held on 13th February 2023

The main goal of the seminar was to enhance the joy of research. Research is a method of methodical inquiry to explore deeper into a topic and create results that are socially meaningful in a variety of formats, such as a thesis, product, research paper, or patent. There are many distinct types of research, each of which uses a different methodology.

Objective of the Seminar:

Specific goals of this Seminar included:

The primary goal of research in any field of inquiry is to investigate by applying scientific methods. Each research has its specific goals that may enumerate broad goals of research

Explaining What are research tools and their techniques

Program Conclusion

Research tools and techniques refer to the methods, instruments, and strategies that researchers use to collect, analyze, and interpret data in a systematic and organized manner. These tools and techniques differ depending on the nature of the research, the research objectives, and the field of study. Here are some common research tools and techniques:

The one-day seminar on The Joy of Research Tools and Techniques came to a close on 13th February 2023, with a Valedictory function. Ms. K.Prasuna gave the welcome address in the valedictory function. Guest of the Valedictory Function gave a motivational speech on relevance of quality research during the valedictory programme.

ABOUT THE COLLEGE

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

ABOUT MBA DEPARTMENT

The department was established in the year 2009 and offers 2 year full time Master of Business Administration (MBA) program with the approval of AICTE, and affiliated to JNTUK.

Department of MBA believes in learning beyond the classroom and in interaction with industry. We at the Department instill aptitude to think logically and act rationally.

Faculty members at MBA promote knowledge through teaching, research and training. Various tools are used to allow students to become Managers, Leaders and Entrepreneurs.

OBJECTIVES OF THE SEMINAR:

Now, this is often economical to use new creation and idea because it directly affects the fabric cost of the merchandise. So, it's important to stay updating the technology and therefore the innovation. If there'll be an honest IPR statute to shield the interest of the people then it'll discourage others to use the identical. Not only a decent law but enforcement of that law is vital too. There's no good in having a strict law if it can't enforced properly. The loopholes and weak laws are often misused and can be exploited which is able to result in less innovation. Now IPR provides exclusive rights to the owner or creator of the property. The owner can decide the fair value may sell them to anyone. A healthy return to developers will encourage him to create new innovations and likewise, we are able to promote innovation.

There's no good in having a strict law if it can't enforced properly. The loopholes and weak laws are often misused and can be exploited which is able to result in less innovation. Now IPR provides exclusive rights to the owner or creator of the property. The owner can decide the fair value may sell them to anyone. A healthy return to developers will encourage him to create new innovations and likewise, we are able to promote innovation.

ABOUT THE COLLEGE

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

ABOUT MBA DEPARTMENT

The department was established in the year 2009 and offers 2 year full time Master of Business Administration (MBA) program with the approval of AICTE, and affiliated to JNTUK.

Department of MBA believes in learning beyond the classroom and in interaction with industry. We at the Department instill aptitude to think logically and act rationally. Faculty members at MBA promote knowledge through teaching, research and training. Various tools are used to allow students to become Managers, Leaders and Entrepreneurs.

OBJECTIVES OF THE SEMINAR:

Now, this is often economical to use new creation and idea because it directly affects the fabric cost of the merchandise. So, it's important to stay updating the technology and therefore the innovation. If there'll be an honest IPR statute to shield the interest of the people then it'll discourage others to use the identical. Not only a decent law but enforcement of that law is vital too. There's no good in having a strict law if it can't enforced properly. The loopholes and weak laws are often misused and can be exploited which is able to result in less innovation. Now IPR provides exclusive rights to the owner or creator of the property. The owner can decide the fair value may sell them to anyone. A healthy return to developers will encourage him to create new innovations and likewise, we are able to promote innovation.

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, AI&ML, CSE Data Science, Master of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About IT Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of IT Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent

trends & technologies in the computer field.

Objective of the Workshop:

Unemployment is a persistent issue that affects individuals, communities, and entire nations. It leads to reduced income, increased poverty, and social unrest. Traditional solutions like job creation through public projects and corporate hiring are important but may not be sufficient in the long run. Entrepreneurship, the process of starting and running a new business venture, can be a powerful and sustainable remedy to unemployment.

Outcomes:

- ❖ Increased Awareness
- ❖ Skill Development
- ❖ Business Idea Generation
- ❖ Business Plan Development
- ❖ Networking

One day Workshop on
ENTREPRENEURSHIP-AS-A-VIABLE-LONGTIME SOLUTION TO
UNEMPLOYMENT
(03-01-2023)

Registration Fee: Free

Registration Deadline: 03-01-2023

A one-day workshop on the intriguing topic, " **ENTREPRENEURSHIP-AS-A-VIABLE-LONGTIME SOLUTION TO UNEMPLOYMENT** ", was successfully organized by Department of Information Technology in association with E D Cell, Vijaya institute of technology for women, enikepadu, Vijayawada, AP, held on 03rdJan 2023.

Objective of the Workshop:

Specific goals of this Workshop included:

Unemployment is a persistent issue that affects individuals, communities, and entire nations. It leads to reduced income, increased poverty, and social unrest. Traditional solutions like job creation through public projects and corporate hiring are important but may not be sufficient in the long run. Entrepreneurship, the process of starting and running a new business venture, can be a powerful and sustainable remedy to unemployment.

Entrepreneurship is a viable long-term solution to unemployment. It creates jobs, drives economic growth, fosters innovation, and promotes self-reliance

About College: The college Vijaya Institute of Technology for Women is founded by Sri. B.S. Appa Rao is an eminent educationalist who has been actively involved in promoting professional colleges such as Engineering, Medical and Pharmaceutical Sciences. His close association with educational institutes spans over three decades. He dreams of alleviating the status of the educational institutions of SRK Foundation making them Centers of Excellence on par with IITs and NITs. He desires of establishing Research and Development wing for inculcating scientific temper, humanism and the spirit of equity and reform among the student community. His objective is to produce world class engineers endowed with human values to serve the society and to bridge the gap between industry and the educational institutions. The college offer courses in Computer science (CSE), Artificial Intelligence and Machine Learning (AIML), Data Science (DS), Electrinocs and Communication Engineering (ECE), Information Technology (IT), Electronical and Electronics Engineering (EEE)

About Department of Artificial Intelligence and Machine Learning (AIML) We are committed to shaping the future through cutting-edge advancements in Artificial Intelligence and machine learning. Our experienced faculty, state-of-the-art facilities, and emphasis on ethics ensure that students are equipped to drive innovation responsibly. From foundational education to advanced research opportunities, our AIML department provides a platform for students to thrive in the evolving landscape of technology.

Explore our comprehensive programs, including a Bachelor's Degree in Artificial Intelligence and Machine Learning. With strong industry collaborations and a focus on hands-on learning, our students graduate well-prepared to tackle real-world challenges. Join us and be part of a community dedicated to pushing the boundaries of Artificial Intelligence and machine learning, creating a positive impact on society.

ONE DAY WORKSHOP ON
Intellectual Property Rights on Patents, Copyrights and Trademarks

Date: November 21, 2022

Presented by: Dr Mamillapalli Vani

A One day Workshop On “Intellectual Property Rights on Patents, Copyrights and Trademarks” was successfully organized by Department of Artificial Intelligence and Machine Learning in association with Intellectual Property Rights Cell, Vijaya institute of technology for women, enikepadu, Vijayawada, Andhra Pradesh, held on 21st November 2022.

The main goal of the workshop is Intellectual Property Rights (IPR) play a pivotal role in protecting and fostering innovation, creativity, and economic growth. To safeguard these rights and promote a culture of innovation, many organizations and educational institutions have established IPR Cells. This seminar report provides an overview of the IPR Cell and its significance in today's knowledge-driven economy.

Objective of the Workshop:

Specific goals of this workshop included:

The primary purpose of an IPR Cell is to manage, protect, and enhance the intellectual property assets of an organization or institution. The key objectives include:

- Raising awareness about IPR among stakeholders.
- Assisting in the identification, registration, and management of intellectual property.
- Facilitating technology transfer and commercialization of innovations.
- Preventing infringement of intellectual property rights.
- Promoting research and innovation through incentives and support.

Program Out Comes:

This workshop is carefully designed around the acquisition of some open-source tools and methods for achieving research goals. Intellectual Property Rights (IPR) programs and policies are designed to achieve several key outcomes, which are important for both individuals and organizations. These outcomes help promote innovation, protect intellectual property, and foster economic growth. Here are some of the program outcomes of IPR:

Innovation and Creativity Encouragement: IPR programs encourage individuals and businesses to invest in research and development by providing legal protection for their innovations and creative works. This fosters a culture of innovation and creativity.

Protection of Intellectual Property: The primary goal of IPR programs is to protect the intellectual property of creators and inventors. This includes patents for inventions, copyrights for creative works, trademarks for branding, and trade secrets for valuable business information.

Legal Framework for Dispute Resolution: IPR programs provide a legal framework for resolving disputes related to intellectual property infringement. This helps protect the rights of creators and inventors and ensures fair compensation for their work.

Cultural Preservation: Copyright and related IPR programs help preserve cultural heritage by protecting traditional and indigenous knowledge and creative expressions.

Consumer Confidence: Trademarks and quality assurance mechanisms provided by IPR programs build consumer confidence. Consumers can trust that products and services bearing specific trademarks meet certain quality standards.

Public Access to Knowledge: IPR programs often include provisions for the public domain and fair use, ensuring that certain knowledge and creative works remain accessible for educational and public benefit.

Balancing Public and Private Interests: IPR programs aim to strike a balance between protecting the interests of creators and the public interest. This includes considerations such as ensuring access to essential medicines and promoting open innovation. It's important to

College Code: NP, Enikepadu, Vijayawada-521108

note that the specific outcomes and effectiveness of IPR programs can vary from one country to another and depend on the legal framework, enforcement mechanisms, and cultural factors within each jurisdiction.

The one-day Workshop on “**Intellectual Property Rights on Patents, Copyrights and Trademarks**” came to a close on 21 November 2022, with a Valedictory function. Dr.G. Chenchamma gave the welcome address in the valedictory function. Guest of the Valedictory Function gave a motivational speech on relevance of quality research during the valedictory programme and encouraged the participants. Dr. P. Subbaiah, coordinator of the IPR Cell presented the report on one day workshop on Intellectual Property Rights on Patents, Copyrights and Trademarks. The coordinator of the seminar taken the Live feedback of participants.

ABOUT US

Vijaya Institute of Technology for Women (VITW) is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE, IT., CSE Data Science, Masters of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference.

ABOUT CSE DEPARTMENT

The Department of Computer Science and Engineering (CSE) is established in the year 2008 with a view to develop quality engineers to meet the current trends. The Department provides Undergraduate program in B.Tech (CSE) is noted for research and teaching excellence. Its recognized faculty members are engaged in breakthrough research across the leading areas of Computer Science and Engineering. The department has got well equipped laboratories with latest soft-wares to meet the industry trends. It also has excellent library facility.

OBJECTIVE OF THE SEMINAR

The objective of writing a good research paper is to effectively communicate your research findings, insights, and contributions to the academic community and beyond.

Objectives:

- Advance the field by adding new information, perspectives, or insights. Your research should address a gap in existing knowledge or offer a novel interpretation of existing data.
- clearly define the research question or hypothesis your paper seeks to answer. The objective is to provide a focused and precise study that addresses a well-defined issue.
- Maintain a high standard of methodological rigor in data collection, analysis, and interpretation. Use reliable and valid research methods to ensure the accuracy and validity of your results.

One day Workshop on How to Write a Good Research Paper - 11-11-2022

Registration Fee: Free

Registration Deadline: 11-11-2022

A one-day Workshop on **How to Write a Good Research Paper** was successfully organized by Department of Computer Science and Engineering in association with Research and Development Cell, Vijaya institute of technology for women, Erikepadu, Vijayawada, Andhra Pradesh, held on 11th November 2022.

The main goal of the Workshop "How to Write a Good Research Paper" was aim of providing researchers, academics, and students valuable insights into the art and science of crafting impactful research papers. The seminar focused on the essential components of a research paper, effective writing strategies, and techniques to enhance the overall quality and impact of scholarly publications.

Objective of the Workshop:

Specific goals of this Workshop included:

The Workshop began with a session on defining the research scope. Participants learned the importance of selecting focused and relevant research topics, formulating clear research questions, and developing testable hypotheses. Emphasis was placed on the significance of novelty and contribution to the existing body of knowledge. Practical demonstrations using relevant software were conducted to enhance participants' analytical capabilities.

Program Out Comes:

The Seminar on "How to Write a Good Research Paper" equipped participants with the knowledge and skills necessary to produce high-quality research papers. By emphasizing the fundamental components of research papers and providing practical writing strategies, the seminar empowered attendees to communicate their research effectively and contribute meaningfully to their respective fields. The seminar's success in fostering research communication skills underscores the importance of ongoing initiatives to support researchers and students in their academic writing endeavors. Continued efforts in educating the academic community about the nuances of research paper writing will undoubtedly lead to the production of more impactful and credible scholarly publications.

The one-day seminar on How to Write a Good Research Paper came to a close on 11th November 2022, with a Valedictory function. Dr. K. Murali gave the welcome address in the valedictory function. Guest of the Valedictory Function gave a motivational speech on relevance of quality research during the valedictory programme and encouraged the participants to keep learning research methodology techniques and doing quality research. Dr. K. Murali, coordinator of the R& D Cell presented the report on one day seminar on How to Write a Good Research Paper.

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE, AIML and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of it's students.

About ECE Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of ECE Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent

trends & technologies in the computer field.

Objective of the Seminar:

The Innovation means doing something new that improves a product ,process or service .Many innovations can be protected through intellectual property (IP) rights. IPR Protection could help to stimulate creativity and risk -taking against counterfeiting and imitation

Objectives:

- ❖ Patents recognize and reward inventors
- ❖ A new Technology comes onto the market , society as a whole stands to benefit.
- ❖ The revenues generated from commercially successful pattern - protected technologies
- ❖ A patent effectively turns an inventor's know -how into a commercially tradeable asset.
- ❖ Makes a small business more attractive to investors.
- ❖ Spark new ideas and promote new inventions.
- ❖ Patent Information can be mapped.

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE, AIML and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of it's students.

About ECE Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of ECE Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent

trends & technologies in the computer field.

Objective of the Seminar:

The Innovation means doing something new that improves a product ,process or service .Many innovations can be protected through intellectual property (IP) rights. IPR Protection could help to stimulate creativity and risk -taking against counterfeiting and imitation

Objectives:

- ❖ Patents recognize and reward inventors
- ❖ A new Technology comes onto the market , society as a whole stands to benefit.
- ❖ The revenues generated from commercially successful patent - protected technologies
- ❖ A patent effectively turns an inventor's know -how into a commercially tradeable asset.
- ❖ Makes a small business more attractive to investors.
- ❖ Spark new ideas and promote new inventions.
- ❖ Patent Information can be mapped.

ONE DAY SEMINOR ON INNOVATION AND IPR

07-09-2022

Registration Fee: Free

Registration Deadline: 06-09-2022.

A one-day seminar on **Innovation and IPR** was successfully organized by Research and Development Cell, Vijaya institute of technology for women, enikepadu, Vijayawada, Andhra Pradesh, held on 07th september 2022

The main goal of the seminar was to enhance the innovation thoughts of IPR inquiry to explore deeper into a topic and create results that are socially meaningful in a variety of formats, such as a thesis, product, research paper, or patent. There are many distinct types of research, each of which uses a different methodology.

Objective of the Seminar:

Specific goals of this Seminar included:

The primary goal Innovation and Intellectual Property Rights (IPR) are closely related, and they have distinct objectives that contribute to economic growth, technological advancement, and protection of creative and inventive works. Here are the primary objectives of both innovation and IPR

Innovation and IPR**

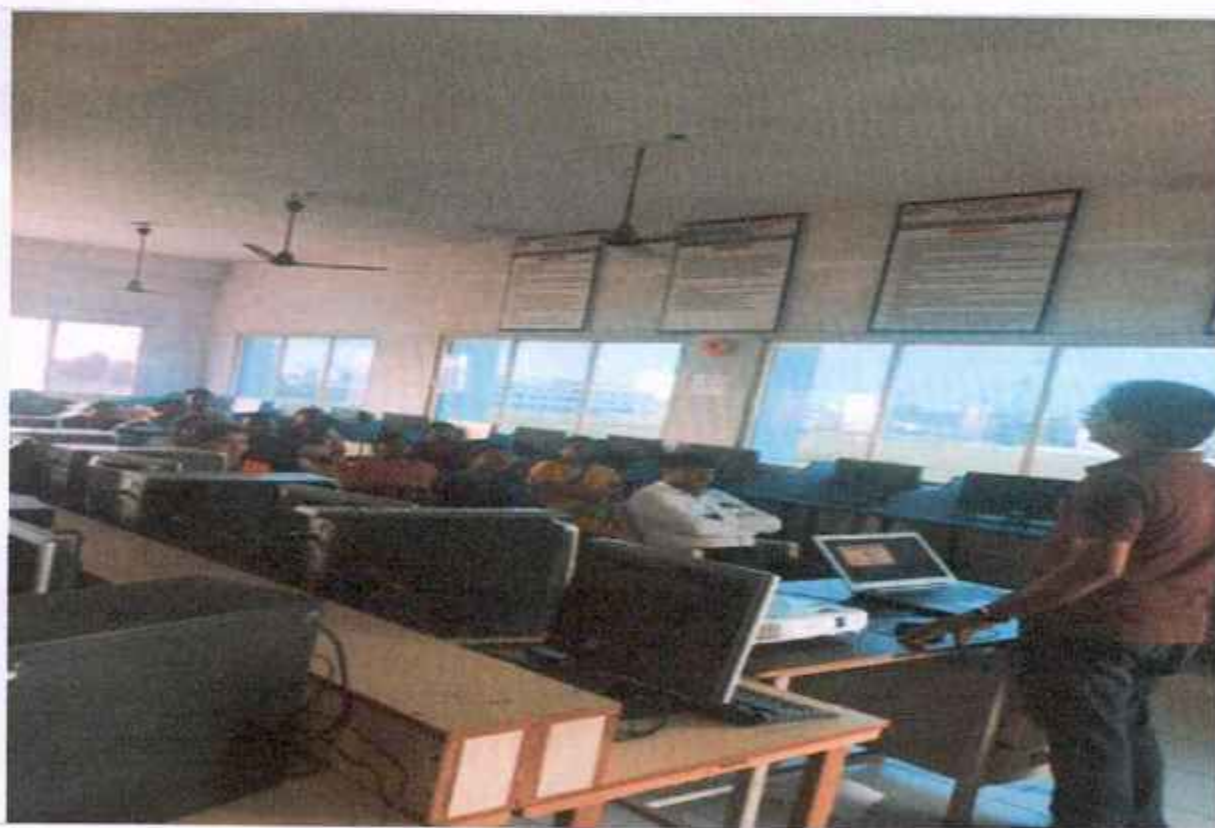

Organized by IPR Cell

Date:07-09-2022

Banner : Organization by IPR

The Seminar's grand inauguration on the 07th of September 2022, starting at 11:00 AM, featured a series of notable addresses. Dr. P.Subbaiah, a distinguished figure in the Department of MBA, kicked off the event with a warm welcome. Following that, the Principal, Dr. G. Chenchamma, shared her thoughts and insights. This inaugural function wrapped up at 1:00 PM, paving the way for the Seminar session led by Dr. P. Subbaiah, where he delved into "Innovation and IPR."

Wrap-up Event

Elaborating on Intellectual Property Rights

In conclusion, the program underscored the crucial connection between innovation and IPR. An effective IPR framework not only protects the rights of innovators but also acts as a catalyst for ongoing creativity and progress. It serves as the backbone of a knowledge-based economy, encouraging individuals and organizations to push the boundaries of what's possible and driving forward the frontiers of innovation. Understanding the intersection of innovation and IPR is vital in today's global economy and knowledge-driven society.

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, AI&ML, CSE Data Science, Master of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About IT Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of IT Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent trends & technologies in the computer field.

Objective of the Seminar:

Data mining is a process of discovering patterns, trends, relationships, or insights

within large datasets. It involves various techniques from machine learning, statistics, and database systems to extract valuable information from data. Data mining has a wide range of applications across various industries.

Outcomes:

- ❖ Customer Relationship Management (CRM)
- ❖ Market Basket Analysis
- ❖ Healthcare and Medical Research
- ❖ Energy Management
- ❖ Transportation and Logistics
- ❖ Weather Forecasting
- ❖ Crime Detection and Prevention
- ❖ Social Network Analysis
- ❖ Human Resources and Talent Management

One day Seminar on **APPLICATIONS OF DATA MINING** (30-08-2022)

Date: Aug 30, 2022

Presented by: Dr. A. Radhika

Executive Summary

The seminar on "Applications of Data Mining" conducted on Aug 30, 2022, by Dr. A. Radhika was a highly informative and insightful event. The seminar delved into the diverse applications of data mining in various domains, emphasizing its significance in today's data-driven world. Dr. Radhika's presentation provided attendees with a comprehensive understanding of data mining techniques and their real-world implementations.

Introduction

Data mining is a powerful process of extracting valuable insights and patterns from large datasets. It plays a crucial role in decision-making, prediction, and knowledge discovery across multiple industries. Dr. A. Radhika, a renowned expert in the field of data mining, shared her extensive knowledge and experience during the seminar, shedding light on the importance and applications of data mining.

**Seminar
On
"APPLICATIONS OF
DATA MINING"**

Aug 30th, 2022

*Organized by
Department of
Information Technology*

Resource Person
Dr. A. Radhika,
Assoc. Professor, Dept. of CSE
SRK Institute of Technology

Addressing of Participants by Resource person Dr A Radhika

PRINCIPAL
**VIJAYA INSTITUTE OF
TECHNOLOGY FOR WOMEN**
ENIKEPADU, VIJAYAWADA-521 108.

Key Topics Covered

1. Introduction to Data Mining

Dr. Radhika began by elucidating the fundamental concepts of data mining, including data preprocessing, data cleaning, and the various algorithms used for pattern discovery. Attendees gained a clear understanding of how data mining fits into the broader field of data science.

2. Data Mining Techniques

The seminar explored a range of data mining techniques, such as classification, clustering, association rule mining, and anomaly detection. Real-world examples illustrated how these techniques are applied in practice.

3. Applications in Business

Dr. Radhika discussed how data mining drives business intelligence, enabling companies to make data-driven decisions. She shared case studies demonstrating how businesses use data mining to enhance customer segmentation, predict market trends, and optimize marketing strategies.

4. Healthcare and Medical Research

Data mining's role in healthcare was another prominent topic. Dr. Radhika showcased how it aids in disease diagnosis, treatment recommendations, and the analysis of large-scale medical datasets.

5. Financial Services

Attendees learned how data mining helps financial institutions detect fraud, predict stock market trends, and assess credit risk. These applications are vital for maintaining the stability and security of the financial sector.

6. Social Media and Recommended Systems

The seminar highlighted the influence of data mining on social media platforms and recommended systems. Attendees gained insights into how algorithms analyze user behavior to recommend products and content.

7. Challenges and Ethical Considerations

Dr. Radhika addressed the challenges and ethical dilemmas associated with data mining, including privacy concerns, bias in algorithms, and the responsible use of data.

8. Future Trends

The seminar concluded by discussing emerging trends in data mining, including the integration of machine learning, big data, and artificial intelligence. Attendees left with a glimpse of the evolving landscape of data mining.

Conclusion

The seminar on "Applications of Data Mining" by Dr. A. Radhika was a resounding success. It provided a valuable platform for attendees to expand their knowledge of data mining and its extensive applications across various sectors. Dr. Radhika's expertise and engaging presentation style left a lasting impression on all participants, inspiring them to explore the limitless possibilities of data mining in their respective fields.

The event underscored the critical role of data mining in shaping the future of industries, research, and decision-making processes. As we move forward in the era of data-driven insights, the knowledge gained from this seminar will undoubtedly contribute to informed and innovative practices across diverse domains.

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, AI&ML, CSE Data Science , Master of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About IT Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of IT Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent

trends & technologies in the computer field.

Objective of the Seminar:

The event aimed to educate participants about the significance of intellectual property rights (IPR) and their role in protecting creative and innovative works. Mr. D Vasu, an expert in intellectual property law, delivered the keynote address and shared insights on various aspects of IPR.

Outcomes:

- ❖ Understanding Intellectual Property in the Digital Era
- ❖ Copyright in the Digital World
- ❖ Patents and Digital Innovation
- ❖ Trademarks and Branding in the Digital Space
- ❖ Trade Secrets in the Digital Age
- ❖ Open Source and Licensing
- ❖ Intellectual Property Management Strategies

One day Seminar on AWARENESS PROGRAM ON INTELLECTUAL PROPERTY RIGHTS (29-08-2022)

Date: Aug 29, 2022

Presenter: Mr. D Vasu.

Introduction

On Aug 29, 2022, an enlightening seminar on "Awareness Program on Intellectual Property Rights" was conducted at Vijaya Institute of Technology for Women in Vijayawada. The event aimed to educate participants about the significance of intellectual property rights (IPR) and their role in protecting creative and innovative works. Mr. D Vasu, an expert in intellectual property law, delivered the keynote address and shared insights on various aspects of IPR.

Objectives of the Seminar

- To increase awareness about the importance of intellectual property rights.
- To educate participants on the various types of intellectual property.
- To discuss the benefits of protecting intellectual property.
- To provide guidance on how to protect intellectual property.
- To create a platform for networking and sharing experiences among participants.

Seminar Highlights

Inaugural Address

The seminar began with a warm welcome by the organizers, followed by an inaugural address emphasizing the growing importance of IPR in today's knowledge-driven economy. The dignitaries expressed their commitment to fostering innovation and creativity while safeguarding the rights of creators and inventors.

TECHNOLOGY FOR WOMEN
ENIKEPADU, VIJAYAWADA-521 108.

Keynote Address by Mr. D Vasu

Mr. D Vasu, a seasoned intellectual property attorney, delivered the keynote address. He commenced by defining intellectual property and highlighting its various forms, including patents, trademarks, copyrights, and trade secrets. He emphasized the need for creators and innovators to protect their intellectual assets.

Types of Intellectual Property Rights

The seminar featured informative sessions on each type of intellectual property right:

Patents: An expert from the Patent Office discussed the process of obtaining patents and their role in protecting inventions.

Trademarks: A trademark attorney explained the significance of branding and how trademarks protect brand identity.

Copyrights: A copyright expert elaborated on the scope of copyright protection and the rights it grants to creators.

Trade Secrets: A representative from a leading company shared insights into safeguarding trade secrets, emphasizing the role of confidentiality agreements.

Benefits of Intellectual Property Protection

Speakers elaborated on the advantages of protecting intellectual property, such as:

- Attracting investment and funding for innovation.
- Fostering competition and creativity.
- Facilitating technology transfer and licensing agreements.
- Enhancing the market value of businesses.

Panel Discussions

Interactive panel discussions brought together experts and practitioners who shared real-world experiences and case studies related to IPR. Participants engaged in fruitful discussions on challenges and opportunities in the field.

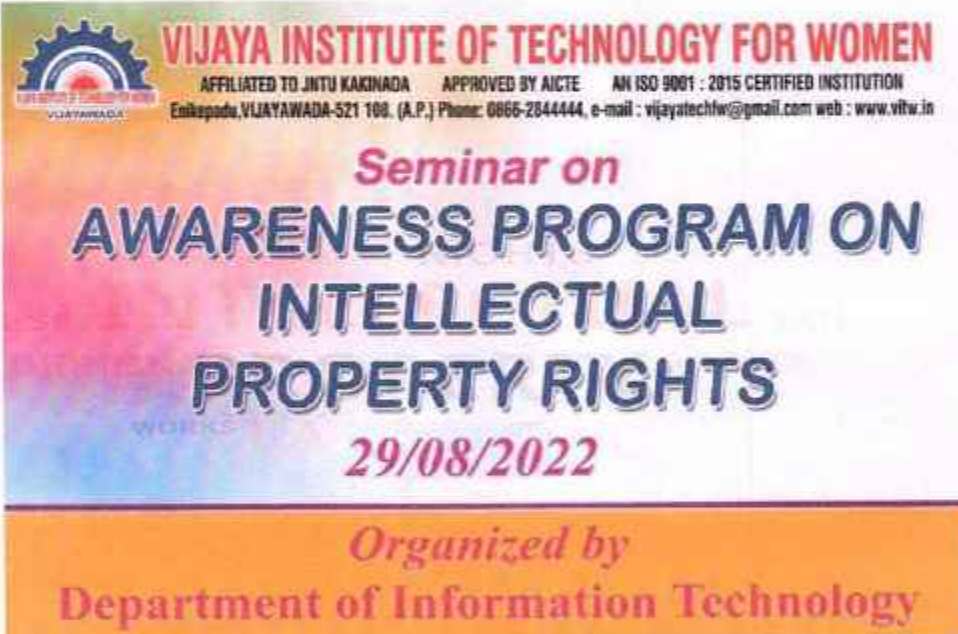

Case Studies

The seminar included case studies from diverse industries, showcasing the positive impact of intellectual property protection on businesses and individuals. These real-life examples illustrated how IPR can drive innovation and economic growth.

Networking Session

A dedicated networking session allowed participants to connect with like-minded individuals, legal experts, and industry professionals. This exchange of ideas and contacts provided a platform for potential collaborations.

Conclusion

The "Awareness Program on Intellectual Property Rights" was a resounding success, achieving its primary objective of enhancing awareness about IPR. Mr. D Vasu's insightful keynote address and the expertise shared by various speakers left participants with a deeper understanding of the importance of protecting intellectual property.

The event served as a valuable platform for education, collaboration, and networking. It is hoped that the knowledge gained during this seminar will inspire participants to take proactive steps to safeguard their intellectual creations and contribute to the growth of innovation in our society.

The organizers express their gratitude to all participants, speakers, and sponsors for making this seminar a memorable and enlightening experience. We look forward to more such initiatives in the future.

Vijaya Institute of Technology for Women

An ISO 9001:2015 Certified Institution,
Affiliated to JNTUK, Kakinada,
Enikepadu, Vijayawada-521108,
Andhra Pradesh, India

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, AI&ML, CSE Data Science, Master of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About IT Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology. The Engineer & Society, a part of IT Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent trends & technologies in the computer field.

Objective of the Seminar:

Awareness of startups and their setup process is crucial for anyone interested in entrepreneurship or the innovation ecosystem. Startups are typically newly established companies with innovative ideas and high growth potential.

Outcomes:

- ❖ Understanding Startups
- ❖ The Startup Setup Process
- ❖ Challenges Faced by Startups
- ❖ Startup Ecosystem
- ❖ Success Stories
- ❖ Resources for Startups
- ❖ Mentorship and Networking

One day Seminar on
AWARENESS OF STARTUPS AND IT'S SETUP PROCESS
(12-08-2022)

Date: Aug 12, 2022

Presenter: Mr. P. Guru Prasad

Introduction

On Aug 12, 2022, Mr. P. Guru Prasad delivered an insightful seminar on the topic of "Awareness of Startups and its Setup Process." The seminar aimed to shed light on the intricacies of startup formation, the challenges faced by aspiring entrepreneurs, and the strategies needed for successful startup establishment.

Seminar Highlights

Session 1: Understanding Startups

Mr. Guru Prasad commenced the seminar by providing a comprehensive definition of startups. He emphasized that startups are not just about innovative ideas but are businesses with the potential to scale rapidly. He also touched upon the importance of disruptive technologies in today's startup landscape.

Session 2: Identifying a Viable Idea

In this session, Mr. Guru Prasad highlighted the significance of ideation and market research. He discussed how to identify a viable business idea by considering market demand, competition analysis, and the unique value proposition that a startup can offer.

PRINCIPAL
VIJAYA INSTITUTE OF
TECHNOLOGY FOR WOMEN
ENIKEPADU, VIJAYAWADA-521 108.

Session 3: Business Planning

One of the key takeaways from this session was the importance of a well-structured business plan. Mr. Guru Prasad discussed the various elements that should be included in a business plan, such as the executive summary, market analysis, financial projections, and marketing strategies.

Session 4: Funding and Financing

Funding is a critical aspect of startup success. During this session, Mr. Guru Prasad explained the different sources of funding available to startups, including bootstrapping, angel investors, venture capital, and crowdfunding. He also discussed the pros and cons of each funding option.

Session 5: Legal Considerations

Startups must navigate complex legal waters. Mr. Guru Prasad provided valuable insights into the legal aspects of setting up a startup, including business registration, intellectual property protection, contracts, and compliance with regulatory requirements.

Session 6: Building a Team

Mr. Guru Prasad emphasized that a strong team is the backbone of any successful startup. He discussed the qualities to look for in team members, how to recruit and retain talent, and the importance of a positive company culture.

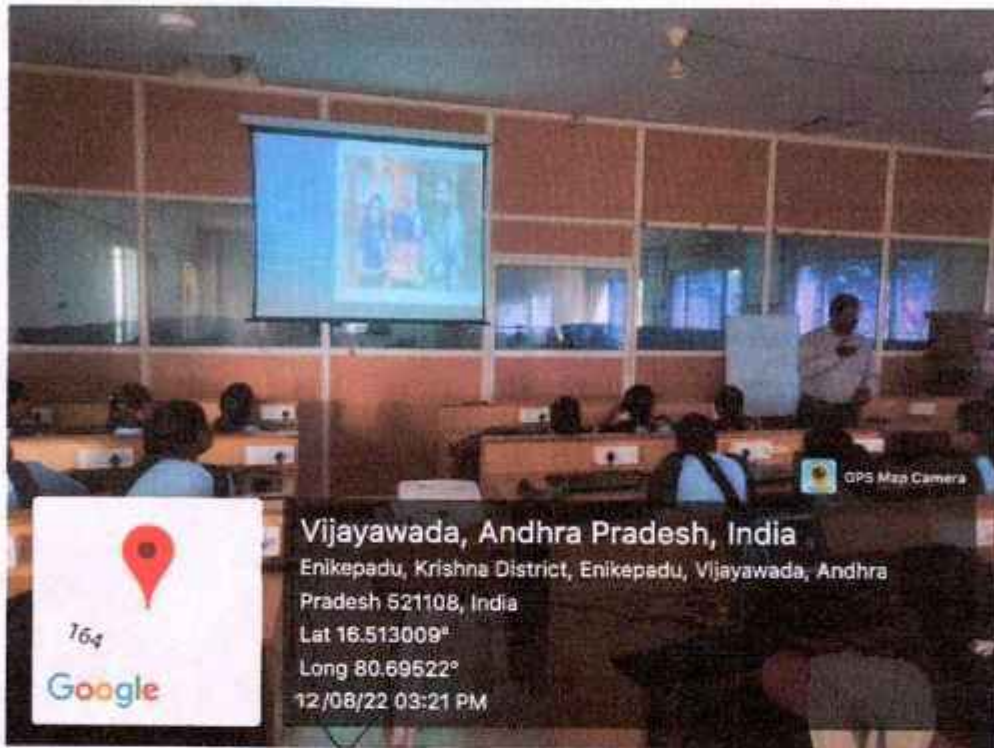

Session 7: Marketing and Growth Strategies

The seminar concluded with a session on marketing and growth strategies for startups. Mr. Guru Prasad discussed the importance of a robust online presence, branding, customer acquisition, and scaling strategies for sustainable growth.

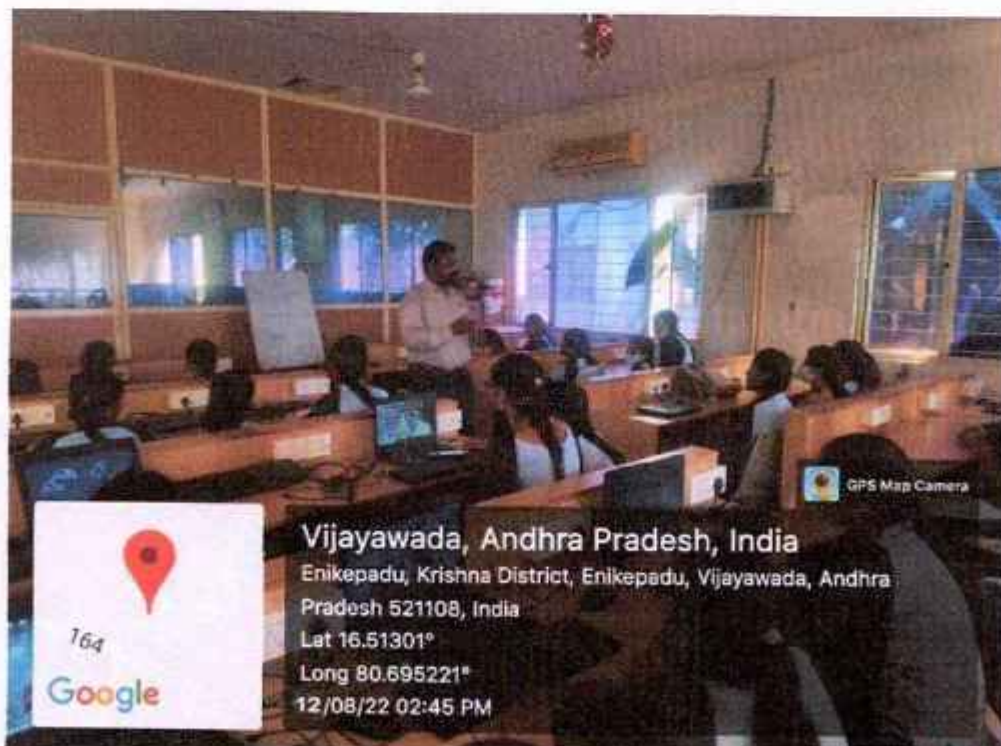

Q&A Session

Following the presentations, there was an engaging Q&A session where participants had the opportunity to ask Mr. Guru Prasad questions related to startup setup, challenges, and strategies. This session allowed for a deeper exploration of the topics discussed during the seminar.

Conclusion

Mr. P. Guru Prasad's seminar on "Awareness of Startups and its Setup Process" proved to be highly informative and insightful for all attendees. The knowledge and practical advice shared during the seminar provided aspiring entrepreneurs with a solid foundation to embark on their startup journeys.

The seminar highlighted the importance of careful planning, a strong team, and a clear understanding of the market as crucial factors in startup success. It also emphasized the need for continuous learning and adaptation in the ever-evolving world of startups.

The participants left the seminar with a better understanding of the startup ecosystem and a renewed sense of enthusiasm for their entrepreneurial pursuits. Mr. Guru Prasad's expertise and guidance were invaluable in shaping their perspectives and strategies for startup success.

We express our sincere gratitude to Mr. P. Guru Prasad for his time and expertise in delivering this seminar. His contribution to promoting awareness about startups and facilitating the setup process is commendable and will undoubtedly inspire many to embark on their entrepreneurial journeys.

ABOUT THE COLLEGE

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati AppaRao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering College in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

ABOUT MBA DEPARTMENT

The department was established in the year 2009 and offers 2 year full time Master of Business Administration (MBA) program with the approval of AICTE, and affiliated to JNTUK. Department of MBA believes in learning beyond the classroom and in interaction with industry. We at the Department instill aptitude to think logically and act rationally. Faculty members at MBA promote knowledge through teaching, research and training. Various tools are used to allow students to become Managers, Leaders and Entrepreneurs.

OBJECTIVES OF THE SEMINAR:

Entrepreneurship is becoming a preferred career path by many people. In the past two years, Indian Economy has taken a great spin. With new challenges there will be advanced solutions and emerging trends that will impact entrepreneurship greatly.

To acquire such knowledge, business skills one should need guidance and experience.

So this Seminar can provide an insight of various emerging trends in Entrepreneurship.

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, AI&ML, CSE Data Science , Master of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About IT Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of IT Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent

trends & technologies in the computer field.

Objective of the Seminar:

The main goal of the seminar was understanding the intellectual property rights (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. [1] These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time.

Outcomes:

- ❖ Patent Laws and Pharmaceutical Industry
- ❖ Traditional Knowledge and Biopiracy
- ❖ Copyright and Digital Content
- ❖ Counterfeiting and Piracy
- ❖ Geographical Indications (GI)
- ❖ IPR Enforcement
- ❖ Data Privacy and Trade Secrets
- ❖ IPR Education and Awareness
- ❖ IPR Policy and Reforms

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, AI&ML, CSE Data Science, Master of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About IT Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of IT Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent

trends & technologies in the computer field.

Objective of the Seminar:

The main goal of the seminar was understanding the intellectual property rights (IPR) refers to the legal rights given to the inventor or creator to protect his invention or creation for a certain period of time. [1] These legal rights confer an exclusive right to the inventor/creator or his assignee to fully utilize his invention/creation for a given period of time.

Outcomes:

- ❖ Patent Laws and Pharmaceutical Industry
- ❖ Traditional Knowledge and Biopiracy
- ❖ Copyright and Digital Content
- ❖ Counterfeiting and Piracy
- ❖ Geographical Indications (GI)
- ❖ IPR Enforcement
- ❖ Data Privacy and Trade Secrets
- ❖ IPR Education and Awareness
- ❖ IPR Policy and Reforms

One day Seminar on CURRENT ISSUES IN INTELLECTUAL PROPERTY RIGHTS IN INDIA (30-07-2022)

Date : July 30, 2022

Presenter: Mr. B Hari Babu.

Executive Summary

The one-day seminar on "Current Issues in Intellectual Property Rights in India" was held on July 30, 2022. The seminar featured Mr. B Hari Babu, a renowned expert in the field of intellectual property rights, as the keynote speaker. The event brought together professionals, academics, and enthusiasts in the field of intellectual property to discuss and deliberate on the latest developments and challenges in this crucial domain.

Agenda

The seminar was structured to cover various aspects of intellectual property rights, with a focus on the current issues and trends in India. The following is an overview of the key sessions and topics discussed during the event:

Session 1: Inaugural Address

Welcoming remarks by the organizers.

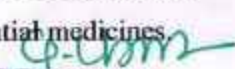

Introduction to the seminar's objectives and agenda.

Session 2: Keynote Address by Mr. B Hari Babu

Mr. B Hari Babu provided insights into the evolving landscape of intellectual property rights in India. He discussed recent legal changes, international agreements, and their impact on IP rights. He emphasized the significance of innovation and IP protection in the Indian context.

Session 3: Patent Reforms in India

A panel of experts discussed recent changes in patent laws and their implications. Topics included patent eligibility criteria, pharmaceutical patents, and the role of Compulsory Licensing. Engaging discussions on balancing innovation and access to essential medicines.

PRINCIPAL
VIJAYA INSTITUTE OF
TECHNOLOGY FOR WOMEN
ENIKEPADU, VIJAYAWADA-521 108.

- Trademarks remain integral for brand protection and are subject to disputes that demand strategic management.
- Protecting trade secrets and confidential information is critical for businesses to maintain a competitive edge.
- Effective enforcement and dispute resolution mechanisms are essential for safeguarding IP rights.

Participants Attended for this Seminar:

Presenting momento to the resource person:

Co-Usra
 PRINCIPAL
 VIJAYA INSTITUTE OF
 TECHNOLOGY FOR WOMEN
 ENIKEPADU, VIJAYAWADA-521 108.

Session 4: Copyright and Digital Media

experts explored the challenges posed by digitalization and the internet to copyright enforcement. Discussion on fair use, licensing models, and the emergence of new content-sharing platforms. Insights into the ongoing copyright reform process in India.

Session 5: Trademarks and Brand Protection

A session highlighting the importance of trademarks in brand identity and market competition. Case studies on trademark disputes and enforcement strategies. Trademark registration procedures and best practices for brand protection.

Session 6: Trade Secrets and Confidential Information

Deliberations on the role of trade secrets in protecting business interests. Discussion on legal mechanisms for safeguarding confidential information. Real-world examples of trade secret misappropriation and litigation.

Session 7: Enforcement and Litigation

An overview of the current IP litigation landscape in India. Discussion on the challenges faced by rights holders in enforcing their IP rights. Strategies for effective IP enforcement and dispute resolution.

Session 8: Q&A and Networking

An interactive session where attendees had the opportunity to ask questions to the speakers. Networking opportunities for participants to connect and exchange ideas. Key Takeaways-the seminar offered valuable insights into the current issues in intellectual property rights in India.

Some of the key takeaways from the event include:

- Intellectual property rights are evolving rapidly in India, with legislative changes and international agreements shaping the landscape.
- Patent reforms are a crucial area of discussion, with a focus on balancing innovation incentives and access to essential medicines.
- Copyright issues in the digital age are complex, requiring continuous adaptation of laws to address emerging challenges.

Conclusion

The one-day seminar on "Current Issues in Intellectual Property Rights in India" was a resounding success, providing attendees with a comprehensive understanding of the latest developments and challenges in the field. Mr. B Hari Babu's keynote address and the various panel discussions contributed significantly to the dissemination of knowledge and the exchange of ideas among the intellectual property community. This event underscored the importance of staying updated on intellectual property matters to foster innovation, protect rights, and drive economic growth in India.

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, AI&ML, CSE Data Science, Master of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About IT Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of IT Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates

awareness among the recent trends & technologies in the computer field.

Objective of the Seminar:

Entrepreneurship and self-development are closely intertwined, as personal growth and skills development play a significant role in the success of entrepreneurs

Outcomes:

- ❖ Self-awareness
- ❖ Resilience
- ❖ Adaptability
- ❖ Communication skills
- ❖ Leadership
- ❖ Time management
- ❖ Networking
- ❖ Financial literacy
- ❖ Innovation and creativity
- ❖ Stress management

Vijaya Institute of Technology for Women

**An ISO 9001:2015 Certified Institution,
Affiliated to JNTUK, Kakinada,
Enikepadu, Vijayawada-521108,
Andhra Pradesh, India**

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, AI&ML, CSE Data Science, Master of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About IT Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of IT Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates

awareness among the recent trends & technologies in the computer field.

Objective of the Seminar:

Entrepreneurship and self-development are closely intertwined, as personal growth and skills development play a significant role in the success of entrepreneurs

Outcomes:

- ❖ Self-awareness
- ❖ Resilience
- ❖ Adaptability
- ❖ Communication skills
- ❖ Leadership
- ❖ Time management
- ❖ Networking
- ❖ Financial literacy
- ❖ Innovation and creativity
- ❖ Stress management

One day Seminar on ENTREPRENEURSHIP AND SELF DEVELOPMENT (19-07-2022)

Date: Jul 19, 2022

Presenter: Mrs. Radhika.

Introduction

On July 19, 2022, a one-day seminar on "Entrepreneurship and Self-Development" was conducted by Information Technology in association with Entrepreneurship & Development Cell. The seminar was organized under the able leadership of Mrs. Radhika, President of COWE India, and aimed to inspire and educate participants on the intricacies of entrepreneurship and personal growth.

The primary objectives of the seminar were as follows:

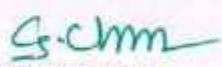

- To provide insights into the world of entrepreneurship and its challenges.
- To offer practical tips and strategies for aspiring entrepreneurs.
- To foster a growth mindset and encourage self-development.
- To provide a platform for networking and idea exchange among participants.

Schedule

The seminar was meticulously planned with a well-structured schedule:

Registration and Welcome: The seminar commenced with registration and a warm welcome by the organizing committee.

Inaugural Address: Mrs. Radhika inaugurated the seminar with an inspiring address. She shared her journey as an entrepreneur and highlighted the importance of self-development in the entrepreneurial path.

PRINCIPAL
VIJAYA INSTITUTE OF
TECHNOLOGY FOR WOMEN
ENIKEPADU, VIJAYAWADA-521 108.

Keynote Speakers:

The keynote speakers were experts in their respective fields, sharing valuable insights, real-life experiences, and practical advice on entrepreneurship and self-development.

Breakout Sessions: Participants were divided into smaller groups for interactive breakout sessions, where they could engage in focused discussions, activities, and workshops related to entrepreneurship and personal growth.

Lunch Break: A well-deserved lunch break allowed participants to network and exchange ideas with fellow attendees.

Workshops and Skill-Building Sessions: After lunch, participants attended workshops and skill-building sessions tailored to their specific interests and needs.

Closing Remarks: Mrs. Radhika delivered closing remarks, summarizing the key takeaways from the seminar and encouraging participants to apply what they had learned in their entrepreneurial journeys.

Key Takeaways

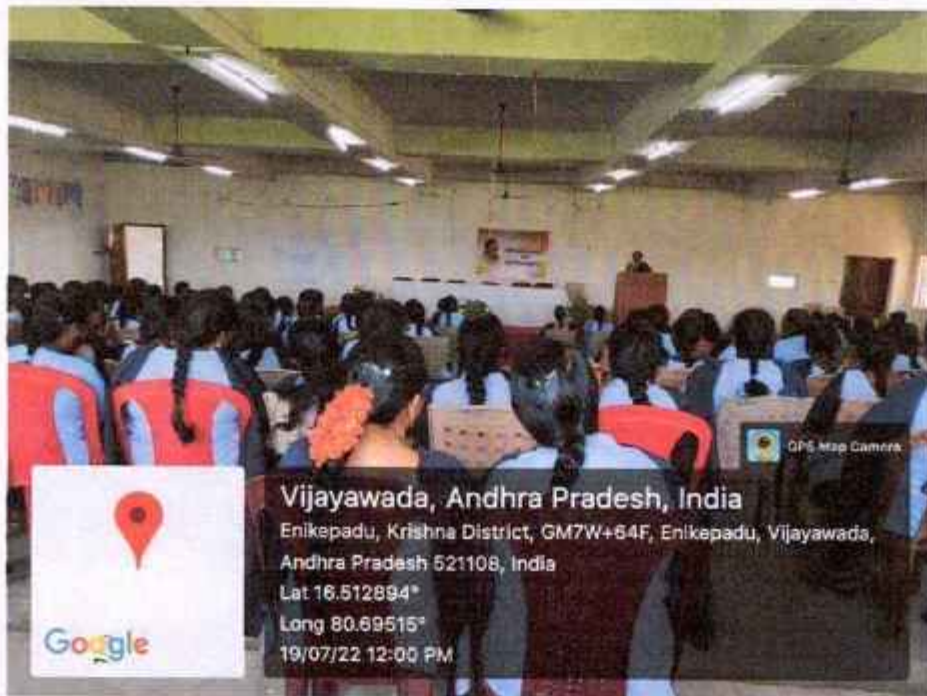

Throughout the day, participants gained valuable insights, including:

- The importance of a growth mindset in entrepreneurship.
- Strategies for identifying and pursuing business opportunities.
- Effective networking and collaboration skills.
- Personal development techniques for success in both personal and professional life.

Addressing of Participants by Resource person Mrs. Radhika

Conclusion

The "Entrepreneurship and Self-Development" seminar on July 19, 2022, organized by Mrs. Radhika was a resounding success. It provided a platform for knowledge sharing, networking, and inspiration for all attendees. The event left participants motivated and equipped with the tools they needed to embark on their entrepreneurial journeys with confidence and a commitment to personal growth.

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, AI&ML, CSE Data Science, Master of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About IT Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of IT Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates

awareness among the recent trends & technologies in the computer field.

Objective of the Seminar:

An education plays a multifaceted role in entrepreneurship development by providing knowledge, skills, resources, and a supportive environment for individuals to become successful entrepreneurs. It not only prepares individuals for the challenges of business ownership but also encourages innovation and economic growth in communities and nations.

Outcomes:

- ❖ Knowledge Acquisition
- ❖ Skill Development
- ❖ Networking Opportunities
- ❖ Entrepreneurial Mind-set
- ❖ Access to Resources
- ❖ Business Planning
- ❖ Market Research
- ❖ Legal and Regulatory Understanding
- ❖ Financial Literacy

One day Seminar on
CAREER GUIDANCE AND ENTREPRENEURSHIP DEVELOPMENT
(24-06-2022)

Date: June 24, 2022

Presenter: Mr. Sai Deepak Bhogadi

Introduction

The seminar on "Career Guidance and Entrepreneurship Development" was held on June 24, 2022, at Vijaya Institute of Technology for Women. The event was organized by Mr. Sai Deepak B as the esteemed speaker. The seminar aimed to provide valuable insights into career planning and development, with a special focus on fostering an entrepreneurial mindset among the attendees.

About the Speaker

Mr. Sai Deepak B is a renowned entrepreneur, mentor, and career counselor with extensive experience in guiding individuals towards achieving their professional goals. He has been instrumental in mentoring numerous successful startups and has a strong reputation for his insights into career development.

Seminar Highlights

1. Career Guidance

Mr. Sai Deepak B began the seminar by highlighting the importance of career planning and decision-making. He emphasized the need for individuals to identify their strengths, interests, and values to make informed career choices. His insightful talk covered the following key points:

Self-assessment: He encouraged attendees to perform a self-assessment to understand their skills, passions, and career aspirations.

Setting goals: Mr. Sai Deepak B stressed the significance of setting clear and achievable career goals.

PRINCIPAL
VIJAYA INSTITUTE OF
TECHNOLOGY FOR WOMEN
ENIKEPADU, VIJAYAWADA-521108

Skill development: He discussed the importance of continuous learning and skill development to stay relevant in today's competitive job market.

2. Entrepreneurship Development

The second part of the seminar focused on entrepreneurship development, where Mr. Sai Deepak B shared valuable insights into starting and growing a successful business. Key takeaways included:

Entrepreneurial mindset: He explained the attributes of successful entrepreneurs, such as resilience, adaptability, and innovation.

Business planning: Attendees gained insights into the importance of a solid business plan and its role in securing funding and achieving long-term success.

Risk management: Mr. Sai Deepak B discussed strategies for mitigating risks in entrepreneurship and making informed decisions.

3. Interactive Q&A Session

The seminar featured an interactive Q&A session, allowing attendees to seek personalized advice and clarifications from Mr. Sai Deepak B. This session provided a valuable opportunity for participants to address their specific career and entrepreneurial concerns.

**“RESEARCH TRENDS IN
ARTIFICIAL INTELLIGENCE”**

June 22nd, 2022

Organized by
**Department of
Information Technology**

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE and IT, AI&ML, CSE Data Science, Master of Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About IT Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of IT Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent trends & technologies in the computer field.

Objective of the Seminar:

The main goal of the seminar was Research into artificial intelligence (AI) is accelerating around the world with the development of big data analysis, machine learning, and deep learning. Commercialization is already underway in many areas, and certain functions such as media processing have achieved results that actually surpass human abilities.

Objectives:

- ❖ Deep Learning Advancements
- ❖ Natural Language Processing (NLP)
- ❖ Computer Vision
- ❖ Reinforcement Learning
- ❖ AI Ethics and Fairness
- ❖ Explainable AI (XAI)
- ❖ AI for Healthcare
- ❖ AI in Autonomous Vehicle
- ❖ AI in Finance
- ❖ AI and Climate Change
- ❖ Quantum Machine Learning

One day Seminar on RESEARCH TRENDS IN ARTIFICIAL INTELLIGENCE (22-06-2022)

Presenter: Dr V Shanmukha Rao.

Registration Fee: Free

Registration Deadline: 22-06-2022

Introduction

On June 22, 2022 a seminar on "Research Trends in Artificial Intelligence" was held, featuring Dr. V. Shanmukha Rao as the keynote speaker. The seminar aimed to provide an overview of the latest developments and trends in the field of Artificial Intelligence (AI), offering insights into the evolving landscape of AI research.

Seminar Highlights

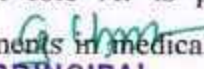

Keynote Address by Dr. V. Shanmukha Rao

Dr. V. Shanmukha Rao, a renowned AI researcher and expert, delivered an engaging and informative keynote address. He highlighted the following key trends in AI research:

Ethical AI: Dr. Rao emphasized the growing importance of ethical considerations in AI research and development. With AI systems increasingly integrated into various aspects of society, the need for responsible and ethical AI practices has never been greater. Researchers are actively exploring ethical guidelines and frameworks to ensure AI technologies are developed and deployed responsibly.

Explainable AI (XAI): The need for transparency in AI decision-making is driving the research in Explainable AI. Dr. Rao discussed various techniques and methods being developed to make AI models more interpretable and understandable, especially in critical applications like healthcare and finance.

AI in Healthcare: The seminar also covered the significant role AI is playing in revolutionizing healthcare. Dr. Rao discussed the latest advancements in medical imaging,

PRINCIPAL
VIJAYA INSTITUTE OF
TECHNOLOGY FOR WOMEN
ENIKEPADU, VIJAYAWADA-521108

predictive analytics, and drug discovery using AI. He emphasized that AI has the potential to greatly improve patient care, diagnosis, and treatment.

Natural Language Processing (NLP): NLP continues to be a rapidly evolving field within AI. Dr. Rao talked about recent breakthroughs in NLP, such as the development of more context-aware models like GPT-4, which have the potential to revolutionize applications in language translation, chatbots, and content generation.

AI for Climate Change and Sustainability: With global concerns about climate change, AI is being leveraged to develop innovative solutions. Dr. Rao discussed how AI is being used for climate modeling, resource optimization, and sustainable agriculture practices, contributing to a more sustainable future.

Quantum Computing and AI: Dr. Rao touched upon the intersection of quantum computing and AI. Quantum computing has the potential to accelerate AI research significantly, and researchers are exploring how quantum algorithms can be applied to AI problems.

AI for Social Good: The seminar also highlighted how AI is being harnessed for social good, including projects focused on poverty reduction, disaster response, and improving education in underserved communities.

Q&A Session

Following Dr. Rao's keynote address, a lively Q&A session took place. Participants engaged in discussions on various AI-related topics, including the challenges of bias in AI algorithms, the role of governments and regulatory bodies in AI ethics, and the practical implications of quantum AI for industry.

Networking Opportunities

The seminar provided ample networking opportunities for attendees to connect with like-minded professionals and researchers in the field of AI. These interactions facilitated the exchange of ideas and potential collaborations in the future.

Presenting momento to the resource person:

Conclusion

The seminar on "Research Trends in Artificial Intelligence" by Dr. V. Shanmukha Rao provided valuable insights into the current state of AI research and its future directions. It underscored the significance of ethical considerations, transparency, and the role of AI in addressing critical global challenges. As AI continues to evolve, staying informed about these trends is crucial for researchers, practitioners, and policymakers alike. Dr. Rao's expertise and the engaging discussions that followed made this seminar a resounding success.

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE,AIML and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About ECEDepartment

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of ECE Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent trends & technologies in the computer field.

Objective of the Seminar:

It seems like like you're interested in discussing the joy of research tools and techniques. Research is a fascinating and crucial aspect of academic and professional endeavors. Here's a brief exploration of some tools and techniques that can enhance the joy of research

Objectives:

- ❖ Understand the assignment
- ❖ Choose a research topic
- ❖ Conduct preliminary research
- ❖ Develop a thesis statement
- ❖ Create a research paper outline
- ❖ Write a first draft of the research paper
- ❖ Write the introduction
- ❖ Write a compelling body of text

ONE DAY SEMINOR ON WRITING AN EFFECTIVE RESEARCH PAPER- MEANS AND METHODS 21-06-2022

Google Meet Link: <https://meet.google.com/stm-vtee-chk>

Registration Fee: Free

Registration Deadline: 21-06-2022

A one-day seminar on **Writing an Effective Research Paper- Means and Methods** was successfully organized by Department of Electronics and Communication Engineering in association with Research and Development Cell, Vijaya institute of technology for women, enikepadu, Vijayawada, Andhra Pradesh, held on 21st June 2022

The main goal of the seminar was Research is a method of methodical inquiry to explore deeper into a topic and create results that are socially meaningful in a variety of formats, such as a thesis, product, research paper, or patent. There are many distinct types of research, each of which uses a different methodology.

Objective of the Seminar:

Specific goals of this Seminar included:

A series of tasks are given for each step in the process of moving towards a problem solution. Every such task, whether it be data collecting, literature research, calculating a solution, or presenting the findings, needs the assistance of a number of tools and technology. These resources are not just helpful; they also contribute to an improvement in the caliber of the research findings

Presentation By Resource person

Resource person explaining through online

Program Out Comes:

This online seminar programme is carefully designed around the acquisition of some open-source tools and methods for achieving research goals. The main tools discussed are those that would help a researcher conduct a methodical background knowledge investigation, visualize data, present results effectively, write a research paper, prepare reports and a thesis, and guard against plagiarism. The seminar overarching goal is to spread awareness of some of the crucial digital tools used for academic purposes, including developing research profiles, locating relevant and high-quality journals, and combining the essential digital skills that can play a critical role throughout the research process.

The one-day seminar on Writing an Effective Research Paper- Means and Methods came to a close on 21th June 2022, with a Valedictory function. Ms. K. Purasana gave the welcome address in the valedictory function. Guest of the Valedictory Function gave a motivational speech on relevance of quality research during the valedictory programme and

encouraged the participants to keep learning research methodology techniques and doing quality research. Dr. K. Murali, coordinator of the R& D Cell presented the report on one day seminar on Writing an Effective Research Paper- Means and Methods. The coordinator of the seminar taken the live feedback of participants.

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE, AIML and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About ECE Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of ECE Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent trends & technologies in the computer field.

Objective of the Seminar

Researchers usually gather qualitative data through interviews, observation and focus groups using a few carefully chosen participation.

A brief exploration of some tools and techniques that can enhance the joy of research

Objectives:

- ❖ Understand the Applied Research
- ❖ Basic Research
- ❖ Correlation Research
- ❖ Descriptive Research
- ❖ Ethnographic Research
- ❖ Write a first draft of the research paper
- ❖ Write the introduction
- ❖ Write a compelling body of text

About College

The college Vijaya Institute of Technology for Women is founded by Sri Boyapati Appa Rao Garu in 2008, with the objective of providing excellent learning facility for women to pursue education in engineering. VITW is affiliated to Jawaharlal Nehru Technological University (JNTU), Kakinada, approved by All India Council for Technical Education (AICTE), Certified by ISO 9001:2015. VITW is the only women's Engineering college in the heart of Vijayawada city, offering engineering under graduate courses in CSE, ECE, EEE, AIML and IT, Masters in Business Administration and Diploma Engineering courses in CSE, ECE and EEE. VITW is not just one more engineering college. It's a college with a difference. It has made its presence felt more with its academic discipline, results and the achievement of its students.

About ECE Department

The department has well-qualified, experienced and dynamic faculty who are engaged in breakthrough research across the leading areas of information technology.

The Engineer & Society, a part of ECE Department produces versatile students encourages them to be employed in exciting careers. On an individual level, it improves programming skills and creates awareness among the recent trends & technologies in the computer field.

Objective of the Seminar

Reserchers usually gather qualitative data through interviews, observation and focus groups using a few carefully chosen participation.

A brief exploration of some tools and techniques that can enhance the joy of research

Objectives:

- ❖ Understand the Applied Reserch
- ❖ Basic Reserch
- ❖ Correlation Reserch
- ❖ Descriptive Reserch
- ❖ Ethnographic Reserch
- ❖ Write a first draft of the research paper
- ❖ Write the intruduction
- ❖ Write a compaling body of text

ONE DAY SEMINAR ON RESEARCH METHODOLOGIES

15-06-2022

Registration Fee: Free

Registration Deadline: 15-06-2022

The Research and Development Cell at Vijaya Institute of Technology for Women in Enikepadu, Vijayawada, Andhra Pradesh, successfully hosted a one-day seminar on **Research Methodologies** on the 15th of June 2022.

The primary aim of the seminar was to elevate the enthusiasm for research. Research is a systematic investigation method used to develop deeper into a subject and generate outcomes that hold societal significance in various forms, such as a thesis, product, research paper, or patent. There exist several diverse categories of research, each employing distinct methodologies..

Desired Outcomes of the Seminar:

Precise aims of this Seminar encompassed:

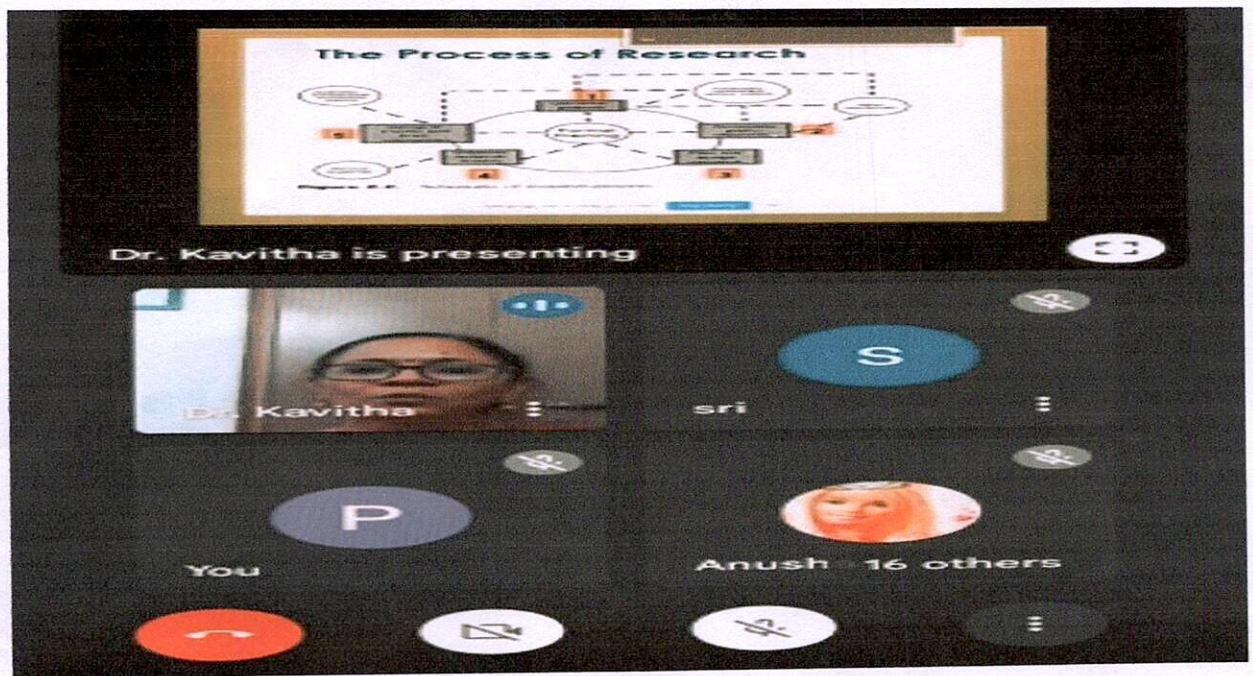

- **Methodological Clarity:** To establish a clear and well-defined research framework and approach.
- **Data Collection Strategy:** To determine the most suitable methods for gathering data relevant to the research question.
- **Data Analysis Tools:** To identify and select appropriate tools and techniques for analyzing collected data.
- **Research Design:** To outline the research design and structure, including the study's scope and limitations.
- **Research Objectives:** To define specific research objectives and hypotheses.
- **Sampling Strategy:** To decide on the sampling method and size if applicable.

Qualitative Research Methods

Resource person Explaining through online

Research procedures refer to the systematic and structured series of steps and activities that researchers follow when conducting a study or investigation. These procedures are designed to ensure that the research is carried out in a rigorous and organized manner, with the aim of answering specific research questions or testing hypotheses. Here is an overview of the typical components of research procedures

Commencement Ceremony

The Seminar on 13-02-2023 had a schedule that went as follows:

Start Time: 11:00 AM

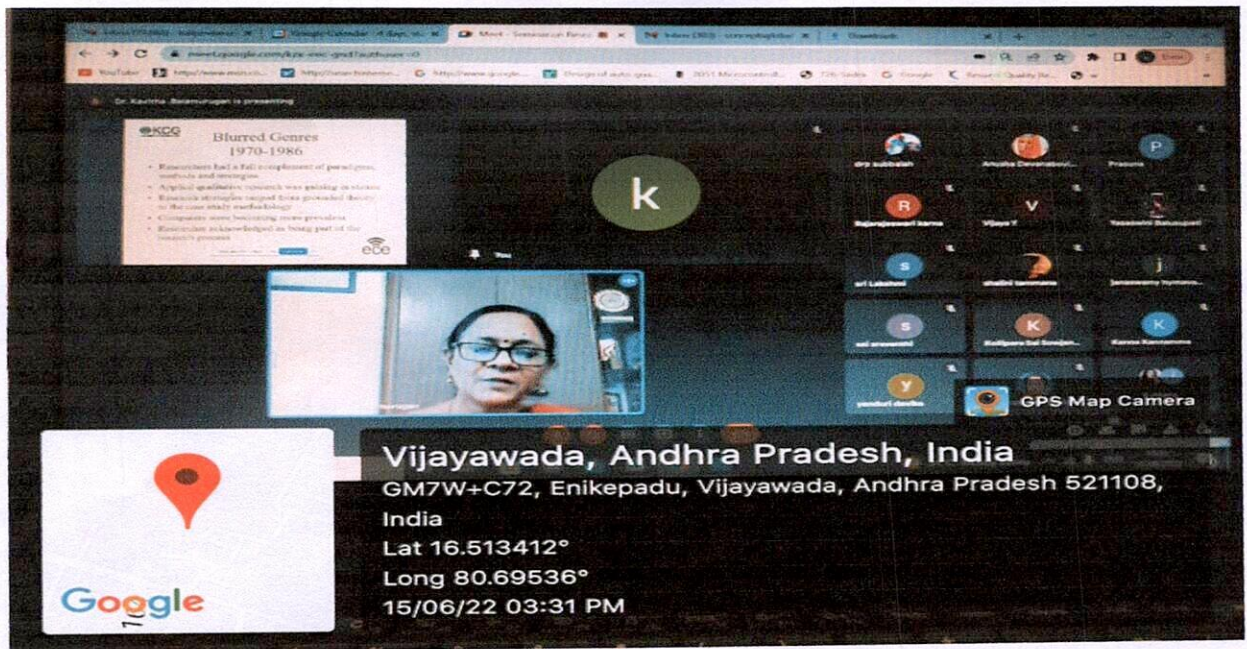

Welcome Address: Delivered by Dr. K. Murali, who is the R&D Cell Coordinator and Associate Professor in the Department of Electronics and Communication Engineering.

Address by the Principal: Presented by Dr. G. Chenchamma.

Keynote Address: Delivered by the distinguished guest and resource person, Dr. K. Murali, who is a Professor and also the Head of the Department of AIML at VITW (Vijayawada Institute of Technology and Management), Vijayawada.

Conclusion of Inaugural Function: The inaugural function concluded at 1:00 PM.

Resource person Explaining through online

In conclusion, this program on research methodologies has provided us with a comprehensive understanding of the fundamental principles and practices that underpin the world of research. We have delved into various research designs, data collection methods, and data analysis techniques, equipping ourselves with the tools necessary to conduct meaningful and rigorous research in our respective fields.

Throughout this program, we have learned that research methodologies are not merely a set of rules to follow but rather a dynamic framework that empowers us to explore the unknown, challenge assumptions, and contribute to the body of knowledge in our chosen domains. Research is the driving force behind innovation and progress, and the ability to navigate its methodologies is a valuable skill that transcends disciplines.
